DANGER OF MEXICAN WAR IS OVER

GERMANS YIELDING TRENCHES BY YARDS

Supreme Offensive Now in Second Phase, and French and British Plan Infantry Rush

15,000 PRISONERS IN ENGLISH HANDS

Russians and Italians in Steady Progress, and Former Plans to Act on 800-Mile Front

LONDON, July 5.—Yard by yard the German lines are being pushed back by entente allies under hammering of their offensive movement on the western front. New progress for both the French and the British is reported by Paris and London today.

Berlin today claims that the fighting of last night on the front of the allied offensive in the west did not result in serious impairment of the German position.

In the Verdun region, the Germans apparently have not lessened their pressure to any appreciable extent. They still hold the important Thiaumont work.

On the eastern front, the breach in the German lines made in the Baranovitch region has been repaired, according to Berlin, but the Russians returned immediately to their attack after having only been driven out of the captured positions.

PRESS CAMP IN FRANCE, July 5.—The total number of prisoners taken thus far in the Anglo-French offensive probably has reached 15,000. Judging from these figures, the German losses as a whole, it is estimated here, have been at least 60,000.

German units from the Verdun front have appeared in action against the British north of the Somme, having been transferred in the last few hours to stem the allied offensive.

A German counter-attack at Thiepval this morning was repulsed, and British General officers rushed up to the British lines surrendering 100 men.

"We are more used to German alive after the war than dead," they said.

The British have taken eleven guns. The relatively small number captured is due to the fact that the Germans, in anticipation of the attack withdrew their guns to longer ranges.

It is reported by prisoners that the Germans are sending in reserves hastily from many points on the western front.

HAND-TO-HAND FIGHT. LONDON, July 5.—The supreme offensive of the allied armies on the western front has entered its second phase with British and French guns preparing the way for another infantry rush against the German lines.

"Hand-to-hand fighting is continuing between the Ancre and the Somme," said a supplementary official bulletin from General Haig at 5 o'clock this afternoon. "We have captured 500 more prisoners."

The guns that broke down German defensive works and cleared the path for the attack launched last Saturday have been moving up and are now ready to launch a terrific cannonade against the German third line of defenses. The artillery spread along a wide front yesterday.

Opposite the British front the German artillery is making a stronger reply than during last week's cannonading. German reserves continue to press forward to reinforce the Somme lines. Thus far the Kaiser has not shifted troops at any other sector of the western front to meet the allied attack. The reinforcements, it is believed, are coming from occupied German garrisons, which the German general staff in the past had shifted from one front to the other in successful offensives.

SYSTEMATIC GRINDING. On virtually all fronts where the allied armies are now engaged in the "treat squeeze," the offensives have settled down to having spectacular strokes to the systematic grinding in of the Austro-German lines.

The Russians alone, now threatening to break out in an offensive along their entire 800-mile front and reported already to have occupied the Caucasus, are counting their progress by miles each day.

The Italians are making steady but very slow progress in their offensive against the Austrians in the Trentino. The French, on the other hand, are the allied offensive have occupied about four times as much territory, captured more prisoners and generally have appeared more successful than the British north of the Somme. The reasons for the greater French success as explained today are as follows:

PREPARED FOR BRITISH. The Germans assumed that the French were so busy at Verdun that they would be unable to participate in a joint offensive. They made no usual preparations to meet a

CHILDREN FLY FROM EPIDEMIC

New York City in Death Grip of Infantile Paralysis

50,000 Little Ones Have Fled the City; 138 Are Dead

NEW YORK, July 5.—The epidemic of infantile paralysis here has hastened the departure of thousands of families who usually leave town for the summer. Estimates made by the health department officials of the number of children who have been taken out of the city since the epidemic became serious is estimated at 50,000, but this is the season when the city population is annually reduced by the summer exodus.

The average of one death an hour was maintained today by the epidemic, twelve children dying of the disease between 10 o'clock last night and 10 o'clock this morning in the five boroughs of New York City.

Thus far, 524 cases of the disease have been reported to the board of health and 138 persons have died. It is most prevalent in the Italian quarter, where the paralysis made its first appearance. High mortality continued to be the striking feature of the epidemic and the death toll has reached approximately that of the entire epidemic of 1907 when 2500 cases were reported.

The order of the health commissioner excluding children under 15 years of age from moving picture shows went into effect today.

Physicians say there is no known positive treatment for the disease but that the child's physician has to combat it with such aid as the doctors can give to lessen the probability of permanent injury. If a strain is allowed to fall upon the affected limb there is great danger of permanent paralysis.

During a period of forty-eight hours there were 188 new cases reported, of which 102 occurred in the last twenty-four hours in or near the seat of the epidemic in Brooklyn.

In one Brooklyn hospital today there were 225 children victims of the disease, many of whom, it was said, had only slight cases of recovery.

The officers of the health department were besieged today by men, women and children, mostly foreigners, who, terrified by reports of the spread of the disease, demanded common extra policemen to preserve order. Since June 26, when the epidemic took hold, 702 cases of infantile paralysis have been reported. Of this number 138 died.

CHICAGO GUARDS. CHICAGO, July 5.—Every baby brought to Chicago from the east today was examined at railway stations by Chicago health authorities searching for traces of infantile paralysis.

Determined to prevent spread of the disease epidemic in Chicago, Health Commissioner Robinson planned to place eighteen physicians at work watching trains from New York.

There are now only three cases of infantile paralysis in Chicago, Robinson said.

Believe Straw Bond Broker Has Skipped

SAN FRANCISCO, July 5.—Evidence that Frank Ambrose, leader of the "straw bond ring," who was at liberty on \$3000, pending his appeal from the sentence of one year imposed by Judge Dunne, has disappeared from the city was presented tonight to the Grand Jury by Assistant District Attorney Louis Ferrar. At the same time Ferrar will ask for a new indictment against Ambrose, charging him with forgery of a deed of trust conveying certain properties of Mary Kennedy of Polson as security for the bonds of Joseph Monahan.

It was in connection with the Monahan case that Ambrose, who is a saloon keeper, was arrested as the moving spirit in the group of men who were helping criminals evade punishment by furnishing worthless bonds for their appearance in court. He was found guilty and sentenced to one year. Pending an appeal to the appellate court, he was released on \$3000 bail.

One Dead as Result of Automobile Upset

SAN RAFAEL, July 5.—One man is dead and seven persons badly hurt today as the result of an automobile accident near here. Albert Fregosi, a San Francisco florist, was instantly killed when the automobile of Severino Giampolini skidded and turned turtle on the state highway at San Antonio bridge. Mrs. Minnie Fregosi, the dead man's wife, was crushed and will probably die. The others in the party, all relatives, sustained fractures and bruises.

Transport Monterey Reaches Port Safely

NEW YORK, July 5.—The Ward line announced this afternoon that it was in receipt of a cable from Havana to the effect that the transport Monterey, for which considerable anxiety had been felt, arrived at that port at 6 a. m. today.

The cable stated that the vessel had been delayed by bad weather.

Tells of Assault By Mexican Mob

'Viva Mexico,' Is Price of Safety

SAN DIEGO, July 5.—Attacked by Carranza soldiers at Santa Rosalia, Sonora, near Mazatlan, and knocked down and beaten when he refused to salute the Mexican flag and yell "Viva Mexico," Lieut. N. H. Wright, executive officer of the U. S. S. Chittanooga, barely escaped with his life about a week ago, according to stories related by Capt. H. Anderson of the steamer Jim Butler, arriving today from Mexican ports.

A Mexican officer, fearful of the consequences, finally rescued Lieutenant Wright and escorted him to his ship. The Mexican port commandant later boarded the vessel with profuse apologies for the incident which were finally accepted by Commander Zenn, after the Mexicans were severely scored and warned how nearly their actions had been to causing a bombardment of the city by the cruiser's guns, which were trained on the town.

Ammunition was piled close by. "There was never a more welcome or a prettier sight than the ships of the Navy protecting Americans in the lower coast ports," said Captain Anderson this morning. "The Mexicans are wrought up to a high pitch. Soldiers, with bayonets at my back, followed me through the streets, insisting that I salute the flag and cheer for Mexico. 'German or kringo?' they kept asking me. 'No savvy,' was all the satisfaction I gave them."

TEACHERS ARE SHOCKED AT LACK OF CLOTHING

New York Gives Thrill to N. E. A. Convention Delegates.

NEW YORK, July 5.—The "big drive" of the suffragists in the National Education Association convention is under way today, but the fight for "woman's rights" is overshadowed by protests against "woman's wrongs."

"Down with displays of fine silken hose, down with rice powder all over the nose!"—this is the battle cry heard in every nook of the McAlpin, Waldorf-Astoria and Astor, where the teachers have gathered.

DISGUSTED. Two days in New York have thoroughly disgusted the visiting school teachers with the "much hose, few clothes" styles of New York women, and they feel that the gay little high school girls of the United States must be saved from these fashions. Suffrage and modesty in dress will be urged upon the convention. Anna Shaw will speak tomorrow night and will have some pertinent things to say about feminine vogues. Mrs. Cora G. Lewis, Kansas' most illustrious woman, is leading the fight for modesty and suffrage.

Rural school teachers feel that city school boys spend too much time in athletics and ten dancings. The back-to-the-soil movement is the only salvation of the country, they claim. Hence the Department of Agriculture education, under the leadership of W. F. Lusk of the University of Minnesota, is urging a resolution to make compulsory agriculture for students in city high schools.

Major General Leonard Wood wound up the fight for military training in the schools with an address to the physical training section today at DeWitt Clinton High School. The committee on military training

FIRE PROVES NEMESIS OF LIFE TIME

Father of Woman Is Burned in S. F. Blaze Tells of Ill Luck

Has Been Flame Victim for More Than 40 Years

Broken and bent by the misfortunes of life, 75-year-old William J. Spiva, father of Mrs. Mamie Sabine, 1123 Twelfth avenue, and grandfather of Misses Gladys and Georgia Sabine, who were badly hurt in the Grand Apartments fire in San Francisco last night, told of the long chain of ill luck which has clung to him all through his days.

Fire, especially, has been the medium through which he has suffered, death and loss of fortune resulting from conflagrations which began 40 years ago and even now follow him.

Spiva's second wife, Mrs. Mary E. Spiva, mother of Mrs. Sabine, was burned to death fourteen years ago at Guthrie, Oklahoma, when a gasoline stove exploded. Just as the daughter was hurt yesterday about the arms and back, so was the mother burned in that portion of the body. She succumbed to her injuries in 1902, following which the grief-stricken man removed to Oakland with his family in an endeavor to forget the tragedy.

FIRE TAKES BUSINESS. While in Kirksville, Missouri, forty years ago, the sheet metal establishment of Spiva went up in smoke, no insurance having been taken on his many misfortunes. At that time Spiva was a wealthy man, but the fire swept all his wealth to the winds and smoke. He began all over again. At this time he was married to Mrs. Katherine Spiva, his first wife. Together they buried the first of his many misfortunes. They had four children, all of them passing away in their early years. One daughter was left. She grew into a fair young woman, but the grim hand of misfortune again interposed, and she, too, left the father when death called.

When the second wife he saw funeral ceremonies held over the bodies of two more children, a boy and a girl. After that death has not come into his life. But it hovers close, as witnessed by the fire yesterday, and

(Continued on Page 4, Col. 1)

Hetty Green Buried With Simple Service

BELLOWS FALLS, N. D., July 5.—After a simple funeral service the body of Mrs. Hetty Green was buried here today in the family plot in a grave beside that of her husband, Edward H. Green. A plain granite shaft inscribed only with the family name marks the spot.

Mexican Troops on Move Below Border

EAGLE PASS, Texas, July 5.—General Murgula was reported today to be moving several thousand Carranza troops from Piedras Negras, Coahuila, here to the railroad town of Allende, forty miles south. No motive for the movement is known.

Italians Continue Trentino Successes

ROME, July 5.—New successes have been won by the Italians in their offensive in the Trentino, the war of the mountain today. They have occupied the summit of Monte Corone, northwest of the Dasiolo, and captured the crest of Monte Selligio.

Community Awake to Need Aid for Families of Troopers

The Fifth California Infantry of the National Guard arrives tonight at the Mexican border and encamps under the stars for the first time in actual service in the time of crisis. In the ranks of the Fifth are many men from Oakland, who have abandoned business and home at the call of their country and whose minds are uneasy for the welfare and comfort of those whom they have left behind. Some may lie sleepless in worry as to how their families will be able to make both ends meet without the regular income to which they are accustomed.

It is the duty of Oakland's citizens to lighten this burden of care upon the minds of those who are absent in the service of the nation. Some concrete expression of the appreciation felt for the patriotic devotion of these men should be made by every person who loves his country and is willing to do his share in times of stress. And the manner of the expression is ready at hand.

While some of the millmen are unmarried, there are many who left wives and children without the certainty of daily bread. These loved ones have been relying upon the support of the breadwinners, and in some cases

the income has been abruptly shut off. Employers who are able to do so are guaranteeing the continuance of regular salaries to such of their employees as are in the service, but this can not be done in all instances.

For the relief of dependents of guardsmen the Chamber of Commerce committee on military affairs is at work in the collection of a fund. A subcommittee, headed by Walter H. Leimert, is engaged in enrolling subscriptions and another committee under Mrs. Mark L. Requa has charge of the distribution of money and supplies. Every citizen of Oakland can do his part in helping this committee.

The Chamber of Commerce committee is composed of Victor H. Metcalf, Stuart S. Hawley, G. B. Daniels, B. A. Forrester and Dr. A. S. Kelly.

Firms who have guaranteed regular salaries to guardsmen employees during their service are THE TRIBUNE, Ross Bros., the Owl Drug Company, the Goodrich Rubber Company, the American Tobacco Company, P. Lorillard Company, Sherwin-Williams Paint Company, Pacific Gas and Electric Company, Pacific Telephone and Telegraph Company, and the White House, and the United Railroads of San Francisco.

CARRANZA REPLY MAKES PEACE SETTLEMENT SURE

Carranza's Reply Received Is Pacificatory in Tone Favorable to Mediation

WASHINGTON, July 5.—Completely pacificatory in tone, the Carranza note answering the last two American communications to Mexico was sent to Secretary Lansing today by Ambassador Arredondo.

PRESIDENT CARRANZA.

Full Text of Carranza's Note

The text of the note follows:

"Mr. Secretary: I have the honor to transmit in continuation the text of a note which I have just received from my government with instructions to present it to your excellency:

"Mr. Secretary: Referring to the notes of June 20 and 25 last, I have the honor to say to your excellency that the immediate release of the Carrizal prisoners was a further proof of the sincerity of the desire of this government to reach a pacific and satisfactory arrangement of present difficulties. The government is anxious to solve the present conflict and it would be unjust if its attitude should be misinterpreted.

"It was also the Mexican government that earnestly suggested the plan for cantonments along the boundary line during the conferences of Ciudad Juarez and El Paso. This government is disposed now, as it has always been, to seek an immediate solution of the two points which constitute the true causes of the conflict between the two countries, to-wit: The American government believes reasonably that the insecurity of its frontier is a source of difficulty and the Mexican government on its part believes that the stay of American troops on Mexican territory, aside from being a trespass on the sovereignty of Mexico, is the immediate cause of the conflict.

Two Essential Problems

"Therefore, the withdrawal of American troops on the one hand and the protection of the frontier, on the other, are the two essential problems, the solution of which must be the directing object of the efforts of both governments.

"The Mexican government is willing to consider in a quick and practical way, and prompted by a spirit of concord, the remedies which should be applied to the present situation.

"Several Latin-American countries have offered their friendly mediation to the Mexican government and the latter has accepted it in principle. Therefore, the Mexican government only awaits information that the government of the United States would be disposed to accept this mediation for the purpose mentioned above or whether it is still of the belief that the same results may be attained by means of direct negotiation by both governments.

Hopes United States Will Act

"In the meantime this government proposes to employ all efforts that may be at its disposal to avoid the recurrence of new incidents which may complicate and aggravate the situation. At the same time it hopes that the American government, on its part, may make use of all efforts to prevent also new acts of its military and civil authorities of the frontier that may cause new complications.

"I avail myself of this opportunity to reiterate to your excellency the assurance of my most distinguished consideration.

(Signed) C. AGUILAR.

"Having thus complied with the higher instructions of my government, it affords me pleasure to reiterate to your excellency the assurance of my most distinguished consideration.

(Signed) E. ARREDONDO."

The note is dated July 4.

Russians Repulsed at Zirin, Germans Claim

BELIN, July 5.—Russian troops are again attacking the German line from Zirin to the region southeast of Baranovitch, in Lithuania, says the German official statement given out today. Very stubborn hand-to-hand fighting is in progress, the announcement adds, and the Russians have been repulsed or driven back from the places where they had broken into the German lines. The heaviest losses, it is said, were sustained by the Russians.

Turks Report Army of Czar in Retreat

CONSTANTINOPLE, July 5.—The war office today made public the following communication: "In South Persia on June 23 the Russians retreated from Koserevanad, fleeing in the direction of Mahalich. The rear guard, which had remained in Harana, fled on June 29 before our advance guards, retreating in the direction of their main force.

"On the Caucasian front our left wing is strengthening the positions of Tchuruk. Attacks of the enemy in this sector failed."

Washington Believes All Chance of Conflict Is Past on Receipt of Message From Chief

MATTER NOW IS DIPLOMATIC SUBJECT

Every Sign Indicates U. S. Will Settle Differences Without Use of Army for Invasion

MEXICO CITY, July 5.—Official despatches received here today said that the American troops are evidently preparing to march toward Palomas, near the border, after concentrating at Colonia Dublan, following evacuation of Naniquipa. Officials believe the movement means the beginning of a complete withdrawal.

WASHINGTON, July 5.—The crisis between the United States and Mexico virtually came to an end today when a friendly and conciliatory note from the de facto government was handed to Secretary Lansing and promptly communicated to President Wilson.

Formal statement of the attitude of the Washington government must await the President's action, but there is no doubt in the minds of officials that the way has been opened for an amicable adjustment of the dispute as to the border situation, which brought the two governments to the verge of war.

Secretary Lansing gave the impression, however, that General Carranza's suggestion that there is no pending question between the governments which cannot be readily answered by friendly negotiation meets with quick sympathy here.

A further interchange of views is expected to begin immediately looking to joint curbing of the border bandits and other irresponsible agencies that have worked to embroil the two governments.

150,000 AVAILABLE. With more than 150,000 regulars and national guardsmen soon to be available for border patrol work, ample forces are at hand to control the situation, even if the Mexican troops now assembled in Northern Mexico are unable immediately to guarantee protection from raiders.

Eliseo Arredondo, Mexican ambassador-designate, had this comment to make:

"The note speaks for itself. It is thoroughly explanatory and sets forth exactly the situation with the United States as viewed by the Mexican government."

"There was a time, it became known today, when General Carranza had framed and virtually was ready to send a defiant reply to the demands of President Wilson. This was little more than a week ago.

Then the unofficial diplomats got busy. They include American and Mexican labor leaders and various persons sympathetic to the cause of labor in the United States. In the last class is included Lincoln Steffens, recently guest of General Carranza for several months. Among the labor leaders is Samuel Gompers, head of the American Federation of Labor. These men had easy access to the attention of General Carranza—Gompers through the fact that Carranza has worked in close touch with Mexican labor leaders and the latter have endorsed Gompers to him.

EMBASSY ASSISTANTS. The Mexican embassy here helped make the way easy for communication. The group of intermediaries bombarded the first chief without letup. They concentrated on one idea, they now say—that of convincing Carranza that President Wilson was sincere in his wish to keep hands off Mexican internal affairs. They brought every argument at their hand to bear on the Mexican executive to prove to him the President was as anxious as himself to prevent intervention or war. Telegrams went, not only from Washington, but from various other parts of the United States where there were men in Carranza's confidence.

And the defiant note, which persons in position to know said today was actually drafted, never was sent.

BASIS OF ADJUSTMENT. An optimistic advance outline of Carranza's reply to American demands was given out by the embassy

(Continued on Page 3, Col. 4.)

6 INVOLVED IN DEATH OF WOMAN

Body in Auto That of Arresting Officer's Relative

SALEM, Mass., July 5.—Six men were arrested here early today when they were found with the body of a woman lying on the floor of the tonneau of their automobile. They were taken to the police station and booked on a charge of being accessories to an illegal operation. One of the men gave his name as ex-Representative Charles R. O'Connell of Peabody. The woman was identified as Miss Margaret Ward and was the sister-in-law of Police Sergeant Charles Duffy, one of the two officers to make the arrest. He identified the body.

In the car with O'Connell were his brother, James O'Connell of Lynn, George A. Barndall of the U. S. S. Kearns, Daniel J. Dineen of Salem, William Conlin of Salem and Thomas Saxton of Peabody.

Patrolman Healy noticed the automobile being driven back and forth on Boston street about 4 o'clock this morning. He stopped it directly in front of Sergeant Duffy's home and then discovered the body of the dead woman in a sitting position in the tonneau. Duffy came out of his home as Healy stopped the car and the two made the arrests.

Guardsmen on Border Now Number 45,000

SAN ANTONIO, Texas, July 5.—Notable relaxation in the movement of National Guardsmen was pointed out today at Army headquarters here. The first big rush was nearing completion. Almost 45,000 guardsmen are either at border stations or on the way.

FOUR MONTHS MAY END GUARDS' DUTY

Militiamen Look Forward to Early Release, Unless War Is Declared.

WASHINGTON, July 5.—Unless untoward events develop, militiamen now stationed on the border or rushing there, probably will be back in their homes within the next four months. How to fill their places, however, is the problem to which President Wilson and army men are giving serious consideration.

Men in touch with both the militia and political aspects of the Mexican situation said frankly today that when the glamour of prospective war wears off, as it now seems likely to do, militiamen will seek to avoid the drudgery of camp life and get back to their families and employment.

Military men say police work along the border is strictly the regular army's job and that the administration must hearken to the inevitable protests of guardsmen against any long continued border service.

Taking these elements into consideration military men said openly today the stay of the militia will not be long unless an unforeseen and unexpected situation arises. Moreover, General Pershing's forces doubtless will be back on the border within a brief time, for there is not any reason for continuing them where they are now, it is privately admitted.

When the militia is removed, a larger regular army force doubtless will be needed for police duty. About 20,000 men—the first increment under the army reorganization bill—will be available this year. Other similar increments will be available each year for the coming four years.

But President Wilson could consolidate these increments and obtain them all this year if he chose.

The administration has made no decision yet as to what it will do on this point but the proposition is destined to become a vital one within a brief time. Military men say that if some such step is not taken soon the militia system will completely break down through the fact that the National Guardsmen will be dissatisfied with more police duty—and no action—while their family perhaps is in want at home.

College Couple Wed After Year's Romance

BERKELEY, July 5.—A romance inherited from last year's Summer Session today culminated in a wedding of two who are students at this year's "little university."

Just a year ago there came to Berkeley for a course in agriculture Chester B. Shelmor, a farmer from Pennsylvania. At the same time was registered Cora N. Bell, school teacher. They became acquainted. In the past twelve months the girl has been teaching in a school 15 miles from Honolulu, while the man remained in Berkeley. Yesterday she arrived on the Matsonia. A trip was made to St. John's paragon in Berkeley and now it is a bride and groom who are classmates.

VESSEL STRIKES ROCK.

ROTTERDAM, July 5.—The Holland-American line steamship Ryndam, which left New York June 17, bound for this port via Paimouth, arrived here yesterday with a hole in her fore peak caused by hitting a rock near Kirkwall. The accident happened in a dense fog while the steamer was going very slowly. There were no casualties.

U. S. Asks Word On Redding Riots

Sec. Lansing Urged by Mexico

REDDING, July 5.—Secretary of State Robert Lansing has asked through Governor Hiram W. Johnson a full report of two riots here between Americans and Mexicans several weeks ago. Following the last riot two weeks ago two Mexicans, who were arrested with other Mexicans and Americans, were sentenced to sixty days in jail for disturbing the peace. Two Americans were stabbed.

The Mexican consulate at San Francisco reported the incidents to the representatives of the Mexican de facto government at Washington, who entered a protest with the State Department.

BORDER MILITIA STILL GATHERING

Few "Slackers" Found for Trial Among Texas Guardsmen.

SAN ANTONIO, July 5.—The big movement of National Guardsmen to the border continued today and General Funston and his staff disposed the state troops on a tactical basis as fast as they arrived.

The exact destinations of other units are not given out here but it is known that about 22,000 New York guardsmen will be stationed in the Brownsville district. The first cavalry squadron and the second artillery company of that state passed through here late yesterday.

Four of the forty-five new trucks ordered are expected to be delivered this week. They comprise thirty-three trucks to the company. From a half to two dozen carloads of horses are arriving daily and it is estimated that 10,000 horses will be here by the end of this week.

Major Stanton Winslow, judge advocate, who came here from Fort Leavenworth to try the "slackers" in the Texas National Guard, is finding it hard to locate anybody to try. Among the recruits who arrived here yesterday were 25 of those listed for court martial for failing to respond when the Texas militia was called out.

Americans Plan to Stay in Mexico City

WASHINGTON, July 5.—Special Agent Rodgers informed the State Department today that over 200 Americans are in Mexico City and all these probably would stay in the city no matter what happened. He said sixty-six American citizens, the last desiring to leave started for Vera Cruz on July 2.

CAPTAIN LAW WOUNDED.

LONDON, July 5.—Captain J. K. Law of the Royal Flying Corps, eldest son of Andrew Bonar Law, secretary for the colonies, has been seriously wounded in France. He has been brought to England for treatment.

REVEILLE FINDS 50 MILITIAMEN

Sacramento No Longer Busy Camp for Troops; All at Border.

SACRAMENTO, July 5.—When reveille sounded at the mobilization camp here today barely fifty militiamen made their appearance—all the rest of the 4600 recently quartered here having gone to the Mexican border. The State Fair grounds had the appearance and general desolation of a circus ground after the circus had departed. Guardsmen still remaining will soon be attached to regiments already in the field.

Secretary of State Lansing, in a wire to Governor Johnson asked him to urge citizens not to inflict unnecessary hardships on Mexicans. Lansing said the Mexican ambassador had complained about assaults on Mexicans in border states.

Reports from troop trains carrying the Fifth and Seventh Infantry to the border were that the men, although not used to heat, remained cheerful while travelling through the desert. They sang, ate all they could lay their hands on and occasionally, when long stops were made, paraded beside the cars for exercise.

Luckenbach Steamer Sunk by Collision

LONDON, July 5.—The American steamer Jacob Luckenbach has been sunk in a collision in the channel. The crew was saved. The Luckenbach was a three-masted steam vessel of 2793 tons, built in 1881, and with New York her port of registry. She was 325 feet long and 33 feet in beam.

NEW YORK, July 5.—The Luckenbach Steamship Company said today they had no details of the collision in the channel by which the Jacob Luckenbach, one of their fleet, was sunk.

Mexicans Dismantle Southern Pacific Shops

GUAYMAS, June 27 (Delayed, by Radio to San Diego), July 5.—Carranza troops which arrived today from the south immediately began to entrench themselves on the hillside partly surrounding Guaymas and placing artillery, brought from Mazatlan, to resist any attempted American landing here. Carranza officials have seized general supplies of every description throughout the city.

The shops of the Southern Pacific of Mexico, at Empalme, have been dismantled by Mexicans and the machinery and commissary supplies carried to the interior. It is reported that bandit followers of Villa, having sworn allegiance to Carranza, are actively working with the troops of the de facto government.

American employees of the United States Sugar Refining Company at Mochisse, Sinaloa, have been urged to get out of Mexico by Admiral Winslow, commander of the Pacific fleet, but they have refused to leave.

O'CONNOR, MOFFATT & CO.

Clearance Sales Tomorrow

These great bargain events will continue in most of our departments. At no time in the whole summer season are prices so drastically lowered as for these semi-annual clearance sales. Splendid sample lines and special purchases of fresh new goods at lower than regular cost are included.

These Sales Now in Progress:

Linen	Suits	Embroidery Models	Corsets
Towels	Coats	Novelties	Underwear
Sheets	Dresses	Bags	N negligees
White Goods	Waists	Hats	Blankets

Suits Now at Lowest Prices

Coats, too, and Dresses, in this season's summer styles, have been reduced to the very limit of price reduction for immediate sale. This is the final—absolute clearance sale of the season.

Clearance of Hand Bags

All odd numbers, slightly rubbed or shop-worn bags, broken lines of purses, strap back and hand bags reduced for final clearance.

**MARYMONT
AND
UPRIGHT**

13th and Washington, Oakland

We've Captured the Town!

The victory is complete, unquestionable. Oakland and adjacent cities have surrendered to the aggressive force of merchandisers who are conducting our

Stock-Adjusting Campaign

which began with a rush this morning. The military spirit dominates this event. This means energy, thoroughness and determination—all success necessities. Every department manager has orders to close out all summer merchandise, broken lines and remnants and is instructed to reduce stocks wherever necessary. All of which means cut prices—your opportunity.

Wonderful Wash Goods 7c yd

This Stock Adjusting group is made up of 27-inch Riplettes (striped effects), 27-inch Woven Crepes (plain colors), 40-inch Voiles (sport stripes), 36-inch Voiles (floral patterns) and 27-inch White Fabrics—Voiles and Dimities. Your choice, 7c yard. Don't delay.

Loom-End Embroideries 4c yd

We can quote this low price only because the lengths are short, yet they are practical for many uses. The widths range from 2 to 7 inches and the fabrics are nainsook, cambric and lawn. Good assortment in edgings, insertions, beadings and galloons.

High Grade Silks 79c yd

A wonderful lot of 34 to 36-inch fabrics—Chiffon Taffetas, Dress Satin and Messaline in popular colors and patterns. The sale started with about 1100 yards, depending from today's results it is advisable to come Thursday if you are interested.

27-in. White Tennis Flannel 8c yd

The genuine Scotland outing flannel—full combed, heavily fleeced and snow white. The width is 27 inches. At 8c a yard it is one of the big Stock Adjusting features in the Downtown Salesroom.

Pure Linen Towels 19c

This tempting price on pure linen towels, size 20x45 inches. Plain white or with red or blue border. The ends are fringed. Downtown Salesroom.

Women's Union Suits 67c

Samples of the "Merode" and "Harvard Mills" lines. You save at least one-third. Plenty of all sizes from 4 to 9, including out size. To be had in twelve styles. Main Floor.

Silk Corset Covers Going at 29c

Dainty garments made of tub silk and crepe de chine trimmed with lace and net insertion. Choice of pink or white. Finished with elastic waist band. Fourth Floor.

Silk Petticoats Marked \$1.35

Heavy quality pure silk messaline petticoats in wanted colors. Pleated and tucked flounces—some with extra under-ruffle. Come promptly to save disappointment. Fourth Floor.

Women's Hose Reduced to 9c pr

A thoroughly reliable serviceable cotton hose in white, tan and black—plenty of all sizes. Every pair perfect.

Lace Curtains 75c pr

Several hundred pairs to offer at this unusual price. They measure three yards long and are 50 inches wide. Very satisfactory pattern assortment in white and Arabian. Consider the price when you think of the length and width. Fourth Floor.

Forcing Out Women's Suits, Coats, Dresses

We have decided on \$10.00 as the feature price for the first days of the campaign. Scores of garments have been reduced to create this bargain lot. Profit has been sacrificed in order to close out the entire summer stock as quickly as possible. We have a comparatively big stock and can offer you the best assortment in Oakland even if prices are reduced. Of course it will be to your advantage to come early.

\$10

We want to impress this very important fact: EVERYTHING NEW THIS SEASON—not a single out-of-date garment to offer. And remember this fact, too: When we make reductions we make them worth while. Our merchandising system permits of no half-hearted measures. \$10.00 is a mighty small price to pay for a Suit, Dress or Coat—you will be amazed at the values we offer.

Make Haste Slowly in Piano Buying!

Don't buy your Piano or Player-Piano hastily. Haste makes waste, runs the old proverb, and nowhere is its truth more surely proven than in piano buying.

Just because an advertisement is alluring, just because it is beautiful, or because it pictures what looked to be beautiful Pianos at unreasonably low prices, does not prove the quality of the instrument or its musical value.

One way to guarantee that you are getting full value is by investigation, and investigation leads to our store. Because we, for forty years, have been investigating Pianos, we know them well and know just wherein your security lies. We know quality and costs, and we know just how little you can safely pay and receive satisfaction. We have a good Piano at that price—better, we honestly believe, than you can find elsewhere, and the terms will greatly please you.

Local N. G. C. Boys Bake Under Hot Sun Life "In Transit" to Front No Joke Watermelon and Bean Diet Is O. K.

ON BOARD FIFTH CALIFORNIA INFANTRY TROOP TRAIN EN ROUTE FOR MEXICO, July 5.—Another scorching day broke this morning shortly after we had crossed the yellow stream of the Colorado and entered Arizona, and the boys are thanking Providence and the railroad tracks that there are only about eight hours more separating us from our destination at the border. At least we expect to be at our camping grounds tonight, for the trainmen say that the schedule calls for arrival before darkness, and if nothing goes wrong, we should be sleeping on solid ground once more by the time for taps.

For a congeries of men who are accustomed to the cool and refreshing climate of the bay region (for the Fifth is made up of companies from Oakland, Alameda, Berkeley, San Francisco and other bay points) there has been surprisingly little complaint about the dry and blistering heat that we have encountered in crossing the Mojave Desert. Handkerchiefs have been constantly busy mopping perspiring brows and open shirt collars have been the order of the day.

NO GRUMBING. But there has been no grumbling. Mild anathemas on all deserts and arid regions and sarcastic comments on the salubrity of a dry climate have been the sole indications that the men are undergoing their acclimatization and hardening for the campaign. Song has become the universal antidote for discomfort and homesickness, and from morning to night popular melodies float from the open car windows. At times "Wake Up, America" and "Tipperary" is a version which has substituted Rio Grande, for the Irish town rings from the whole and other bay guards, the refrain starting in the forward coach and being taken up along the line.

The most irksome rule is that which forbids the men leaving the car to which they are assigned and visiting in the other compartments of the train. But even this restriction is taken with good humor and made the subjects for jest and quip. The men are not allowed to leave the cars at the stations except under certain conditions which require that they shall remain in squad formation.

"Shore liberty," as we designate it, may be given by the officers only at times when the train officials announce a stop of thirty minutes or longer at a station. Then the men may be allowed exercise on the platform, but without

breaking formation. The only company taking this advantage so far is the machine gun company of San Francisco under Captain F. A. Marriott and Lieutenant W. A. Scott. They piled out at Barstow with the thermometer at 100 or thereabouts and jogged around the station at a dog trot for nearly fifteen minutes.

WATERMELONS. Watermelons—cool and juicy—are the articles of the menu that appeal most to the boys at most times. The rest of the bill of fare is strictly in accordance with army tradition: beans, bread and butter and coffee for breakfast, and something very similar for lunch and dinner. But a very small basket would hold all the scraps that are left by the hungry trainload after a meal. There are more Oliver Twist-like tales than there are supercilious triflers with food.

The cooking arrangements are interesting from the point of view of efficiency and extemporaneousness. A baggage car is placed mid-section of the train and two large regulation camp cook stoves are firmly set in the middle of it. The cooks of the various companies combine in the preparation of meals, and they are doing their work well, judging from the encomiums of the men.

Italians Flee From Stromboli Earthquakes Disturb Several Cities

ROME, July 5.—The eruption of Stromboli has become serious. The flow of lava is spreading to the sparse coast settlements, burning and destroying houses, and the population is fleeing to the sea and taking refuge on relief ships sent from Messina. Telephonic communication with Messina has been interrupted. There are many signs of seismic disturbances throughout Italy. The heat has been intense for the past two days.

Earth shocks occurred this morning at Ancona, Rimini, Belvedere, Martello and other Adriatic districts, but no loss of life has been reported.

**Posed as Officer to
Get Troop Information**
ALBUQUERQUE, N. M., July 5.—On orders from General George Bell Jr., Albuquerque police have under arrest today J. B. King, charged with representing himself as a federal officer to obtain information of troop movements.

King is said to have claimed to be a lieutenant in the aviation corps. He was arrested late last night.

KAISER RUSHES REINFORCEMENTS

(Continued From Page 1)

French attack, but with knowledge of the extensive British preparations, they strengthened their lines opposite the British front. North of the Somme, where the British are attacking German lines of communication are far stronger than to the south, where French guns already have disorganized the German transport system to some extent by shelling the roads leading from Peronne. The ground north of the Somme is more difficult for an advance, according to British experts, than the ground where the French are operating. Lastly the English feel that the Germans desire to land their most effective blow against the British for the purpose of appeasing popular opinion in Germany, impressing neutrals and possibly creating a demand for peace in England.

The English people, however, are not disturbed nor are they jealous over the French successes. They realize that the clever French strategy in shelling the German railroads and south of the marsh lands abutting the Somme has had much to do with the striking French victories in the advance on Peronne. The Germans evidently anticipated a direct front attack by the French. It is felt here, however, that mere territorial gains are not a criterion of the ultimate result. The public is generally satisfied that General Haig is steadily accomplishing the real object of the offensive.

The Kaiser is withdrawing troops from the Verdun front to meet the supreme offensive of the allies which continued to gain ground on both sides of the River Somme in last night's fighting.

Despatches from British headquarters this afternoon announced the appearance of German tanks on the Verdun battleground on the front north of the River Somme.

The news was regarded as vastly more important than the French and British official statements, reporting further gains in most of the fighting last night.

How many German troops have been transferred from Verdun is not yet known, but British military men declared tonight that the allied offensive has already succeeded in one of its objects, the lightning of the German pressure on Verdun. They held that the shifting of troops from Verdun to the Somme front indicates a realization by the Germans of the grave menace of the present allied offensive.

Statements from the German, British and French war offices this afternoon agreed that the allied drive was resumed on a great scale last night, with heavy fighting on both sides of the Somme.

IMPORTANT PROGRESS.
The French made important progress on both banks of the river, pushing eastward and capturing German trenches past Curlu, on the north, and advancing to within less than three miles of Peronne, their immediate objective, in heavy fighting south of the river. The French war office announced the capture of the Sormonto farm (position) four miles north of Peronne, and south of the Somme.

Sir Douglas Haig, British commander-in-chief, reported at 2 o'clock this afternoon that the British have further important enemy positions in heavy fighting between the Ancre and the Somme. Press despatches from British headquarters carried the additional word that German attacks at Thiepval were repulsed this morning. The German war office this afternoon issued only a brief statement on the allied offensive, announcing only that violent fighting continues on both sides of the Somme.

The Italians after regaining territory in the Trentino are going to their original plan, and are attacking along the lower Isonzo, where they have gained lesser successes.

RUSSIAN ADVANCE.
Important news comes from Petrograd. Russian advance guards on General Letichy's left are engaged with Austrian rear guards on the spurs of the Carpathians and unofficial reports even say Cossacks have been raiding Hungary. General Letichy's right has opened a passage in the direction of the stretch of railway connecting the rear of the entire Austrian front in the Kolomea-Stanislaus-Lemberg—while the occupation of Delatyn, for which the Russians are making, would sever the communications of General Von Bethmer's army.

Both Field Marshal Von Hindenburg and Field Marshal Von Mackensen are reported to have arrived at Kovel to direct operations designed to break the Russian advance in Volhynia.

The latest official despatches lay claim on both sides to successes in this region.

Meanwhile the Balkans are attracting more attention, for some time. Military activities are revived and the successes of the entente allies are reported to have caused a renewal of the propaganda of pro-entente politicians in both Greece and Rumania.

**GALE BLOWS OFF
GULF OF MEXICO**

NEW ORLEANS, July 5.—A wind and rain storm, with the wind reaching a reported velocity of eighty miles an hour at Pensacola and sixty or more at points west of there, cut off at 9:30 o'clock this morning and hours later prospects of getting into direct communication with that city were meager.

Shipping at Mobile suffered and docks at Port Morgan were destroyed. The sixty-mile gale swept through the streets of Mobile, breaking windows and doing other damage.

The wind was high at New Orleans, but no serious damage was reported.

TWO CARS STOLEN.

Thefts of two automobiles have been reported to the police, one of which was recovered soon after the loss was noticed. R. H. Freestone, 624 Thirteenth street, reports that his five-passenger touring car was taken from the salt water pumping station at Lake Merritt. The other lost car, since recovered, is the property of F. H. Hacke, 2226 San Antonio avenue, Alameda, and was taken from the same location as Freestone's larger machine. It was recovered in Berkeley.

DANGER OF WAR VIRTUALLY OVER

(Continued From Page 1)

yesterday. While embassy attaches, in interpreting the message, did not indicate Carranza strictly disavowed orders to General Trevino to fire upon American troops, they felt the tone as a whole would give a basis for amicable adjustment of affairs between the two nations.

Mexican observers added that President Wilson's pronouncement of policy toward Mexico made it impossible for him now to go to war with the first chief, in view of the latter's desire for mediation, or direct negotiations to settle troublesome problems. Pan-American countries will seize upon this opportunity to renew mediation proposals, and either these will be accepted or direct negotiations will be undertaken by this government, it is believed.

HOSE, FEW CLOTHES SHOCK TEACHERS

(Continued From Page 1)

is meeting this afternoon and will report tomorrow.

Next to the suffrage and dress question, the problem of defective children occupied the school directors today. Sectional meetings to discuss the problem of training defective children were held.

NOMINATION.
The unanimous nomination of Robert J. Aley, president of the University of Maine, for president of the association, was expected when the nominating committee reports late this afternoon.

Plans for revolt against "machine school systems" for a scheme of teaching which would instruct boys and girls how to work, was made today by John M. Mills, superintendent of schools of Ogden, Utah. "A sentiment should be developed in every community," he said, "that a boy who graduates from high school and does not know how to make a living, should consider himself not only uneducated but disgraced."

The library section of the convention heard appeals for comprehensive library auxiliaries to teaching by Charles Hughes Johnson of the University of Illinois.

**German Prince, Aged
10, Enlists in Army**

BERLIN, via London, July 5.—According to a traditional custom of the Hohenzollern house, Prince William, eldest son of Crown Prince Frederick William and heir presumptive, was enrolled in the army yesterday, his tenth birthday. He was appointed a lieutenant of the first guard infantry.

The prince, like his great-grandfather, Emperor William I, who became a lieutenant in 1857, begins his military career in the midst of a great war.

Prince William also was given an honorary command with the Second Guard Landwehr regiment.

"Have you a pasturage yet?" Mrs. Twickenbury asked the divinity student at the senior class reception.—Christian Register.

PEACE PROGRAM IS OFFERED TO BOARD

School Directors May Name
Miss Brown President as
Harmony Move.

Miss Annie Florence Brown may be the next president of the Board of Education. The school board will hold a meeting this afternoon for the election of officers.

If Miss Brown is elected to succeed President R. B. Cook it will be the first time a woman has occupied this position of head of the board.

The plan to make Miss Brown president has been guarded with the strictest secrecy by several members of the board who have discussed the matter, and rumors emanating from persons not connected with the department gave the first intimation that such a program was under consideration. Even after the rumor had been started, school directors who constitute a majority of the board refused to confirm it with any definite statements.

The rumor is to the effect that the selection of Miss Brown would be in the nature of an olive branch of peace held out by the majority of the board to the minority faction. The harmony movement would be a confirmation of recent statements made by members of the board that policies will be eliminated in future as far as possible, and that no factions which have constituted the school board and have to some extent governed its action will be abandoned.

Miss Brown has been a member of the minority, consisting of Directors Brown, A. S. Kelly and Harriet B. Hawes. The directors who constitute the majority are Directors Edwards, Aber and Boyle and President Cook.

The rumor of the election of Miss Brown indicates that at least two members of the majority will vote for Miss Brown. Directors Kelly and Hawes will undoubtedly vote for Miss Brown, it is anticipated. There is a strong probability that the action will be unanimous.

The position is an important one, especially in view of the fact that the president of the board has the naming of the committees for the fiscal year. Much of the business of the board is practically determined upon in committees.

**Expert Says City
Has Great Future**

Dr. B. M. Rastall, the expert employed by the San Francisco Chamber of Commerce to make the \$40,000 industrial survey of the bay region, was the speaker today before the Manufacturers' Committee of the Chamber of Commerce.

Dr. Rastall told of the value of industrial survey work, in that it "took stock" of a city's advantages.

Your city has commercial possibilities for sale," he declared. "The industrial survey is simply a selling method. Here in the West you have everything in natural advantages, and the present progress is only a forerunner for one of the greatest periods of development ever seen in the world, right here on the bay."

CUTLERY STOLEN.
A. W. Seaman, 4372 Montgomery street, reported to the police that his house was entered while members of the family were absent and a large quantity of silver cutlery taken. The police expect a recovery of the silver and the arrest of the thief in a few days.

Mrs. Mary J. Probert, mother of Professor Frank H. Probert of the mining engineering department at California is dead. Mrs. Probert was 67 years old, a native of England and had only been in California a few years. She had many relatives in Los Angeles.

Censures Action Of Suffragettes

Senator Denies Control
of 4,000,000 Votes

WASHINGTON, July 5.—Members of the Congressional Union for Woman Suffrage were denounced in the Senate today by Chairman Thomas of the woman suffrage committee for interrupting President Wilson yesterday when he was dedicating the new American Federation of Labor building.

Senator Thomas read a letter from the legislative chairman of the union saying that organization was not ready for a vote on the Federal suffrage amendment. He said he would not urge a vote himself, because the amendment would receive fewer votes now than it did last year, inasmuch as Senator Penrose was now opposed to it, and Senators Phelan of California and Johnson of South Dakota, new Senators, would vote against it.

He denied the Congressional Union or the Woman's party controlled 4,000,000 votes, the total strength of women in the suffrage States.

BRITISH OFFICER OF STAFF EXPLAINS

LONDON, July 5.—"Only German soldiers in open field formations now stand between the French and the river Somme," said Major General F. B. Maurice today, referring to the part of the river which flows northward to the east of the sector along which the French have made their greatest gains. "The last of the enemy's defense works in that sector have been captured by our allies."

In giving the Associated Press a summary of the results attained by the entente allies of defensive on the western front, Major General Maurice, who is director of military operations of the imperial general staff, continued:

"Much undeserved obloquy has been heaped upon the British army by English, French and American people because we apparently did nothing to assist the French in the desperate fighting on the Verdun front. But all this time we were doing the work required by General Joffre."

"According to this plan, we conserved our troops, accumulated supplies and waited the word for the grand offensive in which we were to place our part with the Russians and Italians, as well as the French. Naturally during this anxious week we could give out no exciting news because our deliberate preparations were not good copy. For certain tactical and moral reasons which need not be dilated upon it was necessary that the French should not lose the east bank of the Meuse and General Joffre informed us that he could hold the positions which command that part of the river until the end of June, so we knew we were going to strike at the beginning of July."

GETS BEATING FOR HIS KISSES.
NEW YORK, July 5.—John Panzer of Williamsburg enjoyed a day's outing at McCarren Park by kissing girls. The mothers of three of the girls beat him and then turned him over to the police. He was remanded for a hearing.

MAY CLEAN-UP ROAD HOUSES AT RICHMOND

Contra Costa County
Board Disgusted at
New Scandals

Supervisors Contem-
plate Move to End
Gay Resort

RICHMOND, July 5.—Disgusted at the black eye given Contra Costa county by the publicity over its roadhouses in this section, the Board of Supervisors announces that it is ready to clean up the district along San Pablo avenue and vicinity.

Supervisor Zeb Knott stated today that he would not grant a temporary license to the Six Bells Saloon in San Pablo avenue where Barney Parish has sold the place to R. A. Graham of Oakland. Under the law Graham's application for a transfer must be advertised for thirty days, and it has been customary, pending the advertising, to grant a temporary permit. Chairman J. H. Trythall of the board said that he is sick of the conditions in this end of the county and intimated that the time for a general clean-up is at hand.

Supervisor Knott, in whose district the Six Bells is located, said that he would not grant the temporary permit, and that the resort will have to remain closed pending the transfer.

Club licenses at \$100 per year are a new feature of the recently adopted county liquor law. This amendment, passed by the board this morning, will allow the clubs conducted by the various large industries at their plants about the county to operate and sell liquor.

It is not believed that some of the roadhouses which have been unable to secure permits and who now claim to be clubs will be able to secure permits under this law.

**EUREKA ARMORY
WRECK PLANNED**

Police Say Explosion Was Deliberately Arranged by Unknown Ones.

EUREKA, July 5.—After police investigation it was said today that the wrecking of the front of the sub-armory of the Fifth Division of the Naval Militia here last night during the Fourth of July celebration was a deliberately planned act. The main part of the division are stored in the building, which is located on a side street near the waterfront.

The disturbance incident to the wrecking of the front of the building presumably accomplished with explosives, was not heard. The guns were not molested.

DR. MEYER
NEXT TO KAHN'S,
1530 SAN PABLO

The U. S. Patent Office —Recognizing Something New

Has Granted a Patent, Both on the Form of
Flake and Process of Manufacture of

**New
Post Toasties**

This remarkable recognition—no other corn flake on the market has achieved it—marks this new food as something distinctly different from "corn flakes" of the past.

What Is This Difference?

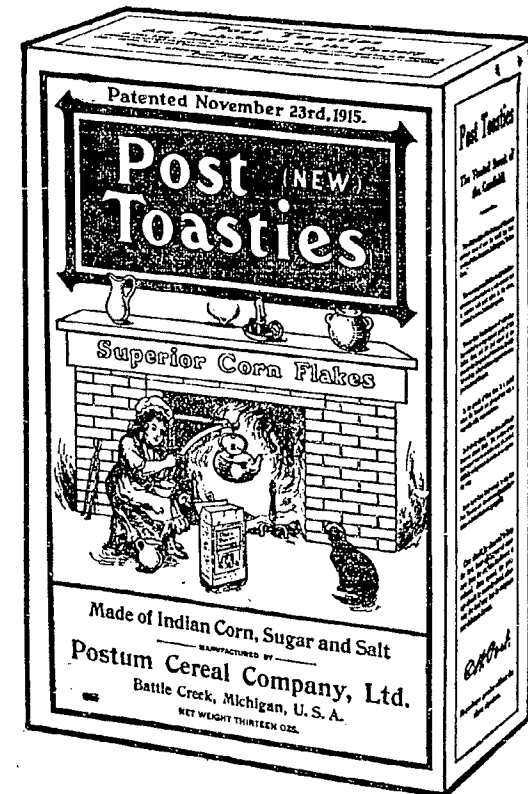

Compare New Post Toasties with the average corn flake—observe the tiny bubbles which cover their surface. These bubbles are caused by a new method of cooking, rolling and toasting under quick, intense heat.

By this process the true corn flavour is developed in all its sweetness. Eaten dry they are a delicious morsel. With cream or milk they are a revelation to the taste. Note the "substance" of New Post Toasties. Unlike old-style "corn flakes" they do not break or "chaff" in the package. They do not mush down under milk or cream. They are wonderfully delicious.

And they come to you direct from the giant ovens of our three great Toastie Factories, untouched by human hand and triply sealed in a moisture-proof container which preserves their fresh Golden Goodness for your table.

At Your Grocers—two SIZES—10c & 15c

FIRE IS NEMESIS OF ANCIENT MAN

Final Tragedy Injures Three Members of His Family.

(Continued From Page 1)

the narrow escape of the three relatives with whom he lives. It is always hovering close, according to the old grandfather, for one of his grandsons, Corporal W. G. Harlan, is now with Company F of the California National Guard, stationed at Nogales, Arizona. Young Harlan is but 22 years old and adventurous. His grandfather is proud of his quick rise in the citizen army, but there is a small but insistent voice close at hand which always causes the thought of death to appear. Mrs. L. L. Harlan, a widow, has motherly love at the same address.

WANTS THEM BACK. And so William Silva sits at the home on Twelfth avenue, legs stiffened from the effects of typhoid, a broken knee, resulting from a fall on the ice three years ago, and with great age bending forward his patient back. He is not bitter at misfortune, but he does wish that it would allow him to stay old without more fatal memories. He hopes that his daughter will be returned to him today from the San Francisco hospital, and that his granddaughters, Gladys, aged 26, and Georgie, just passing 16, will go back to their work soon in local stores. All he asks is that life run along smoothly for just a few years more. After that he will not care.

Fire Helmets Are Tested at Blaze

Damage to the amount of \$1500, well covered by insurance. Is the result of a fire at 507 Washington street, when the Lung Chong dry goods store burst into flames. A still alarm brought the fire department, and the flames were quickly under control. The building, a two-story frame structure, contains stores and a rooming house, but the fire department confined the damage almost entirely to the stock of goods. The damage to the stock amounted to \$500, while the building was damaged to the extent of \$1000. The property belongs to the Ryer estate.

This fire brought into use for the first time a new smoke helmet, which enables the firemen to go through the thickest smoke and flame without suffocation. The supply of oxygen which it draws to the nostrils lasts two hours. The department is satisfied with the invention.

Last Rites Said for Mrs. Charles Melvin

The funeral of Mrs. Georgina H. Melvin, sister-in-law of Justice Henry J. Melvin, was held this afternoon in the California Crematorium at 2 o'clock. Mrs. Melvin was the wife of the late Charles S. Melvin, secretary of the Memorial View Cemetery Association for many years, and the mother of Edward P. and Marjorie Melvin, who survive her. A brother, Henry L. Hawthorne, and a sister, Mrs. T. M. Webster, are also living. Mrs. Melvin passed away at the Melvin home, 1517 Alice street, Sunday.

The Orpheum's Triumph is the Talk of Oakland!

They are all screaming at Nat Wills' stories.
They are Gurgling with joy over Wilfred Clarke's brilliant farce, "Who Owns the Flat?"
And—
The town simply rocks with laughter over the Liberty Theater favorites in
"THE HIGH COST OF LOVING!"
It's so spicy!
It's so funny!
To see those four ancient "Lotharios" in such hot water, when each fancies he is the father of a ballet dancer's mythical child—it is to scream!
It is a bit daring—if you please, but in a gales of gayety no one cares—it's good for 1500 laughs. That's enough.
Remember the Orpheum's new vacation prices are now in effect.

Fire Suspect Is Released Discard Incendiary Theory

THREE OAKLAND WOMEN WHO FACED DEATH IN FIRE. THEY ARE GEORGIE SABINE (UPPER LEFT), GLADYS SABINE AND MRS. MAMIE SABINE (LOWER).

Two Women Dead; Many Hurt in S. F. Apartment Blaze

Unshaken by a steady questioning for hours by detectives of the transbay police force, Garfield Adams, a painter, who was charged with responsibility for the fire in the Grand apartments, 947 Golden Gate avenue, San Francisco, in which two women met their death and three Oakland women escaped with slight injuries by leaping into life nets from the third story, was released from custody this afternoon, and the theory of incendiary as the cause for the blaze has been abandoned.

Adams was placed under arrest on the allegation that he had quarreled with the landlord during the afternoon and had been seen about the building. Investigations today showed that he has a previous police record, having been arrested several years ago as a burglar suspect on the roof of a Fillmore street apartment house. The charge was reduced, however, and he served a short sentence in the House of Correction. His connection with the fire last night could not be established, and he was set at liberty.

Mrs. Hazel Harrison, 23, and Miss Edna Daniels, 35, perished in the flames, which spread rapidly through the apartment house shortly after 8 o'clock. Mrs. Harrison was killed by leaping from the third story to a fire escape below and Miss Daniels was overcome by smoke in her apartment.

Among the eleven others who were injured by burns and hurts obtained while leaping from windows were three Oakland women, a mother and two daughters. Mrs. Mamie Sabine, 1123 Twelfth avenue, and her two daughters, Georgie and Gladys, are recovering today from their leap to the nets below. All three were brought to face with death in the smoke and flames, and only their courage in taking the risky leap saved them. Mrs. Sabine was hurt about the back, suffering a bad sprain, while cuts on her arms from broken glass completed painful lacerations. Georgie is suffering from cuts on the hands and arms, obtained when she jumped from an upper window into the rope net below.

TENANTS TRAPPED. Such rapid headway did the fire make after its start in the basement that tenants on the second and third floors were trapped and unable to descend the stairways. Chief Thomas R. Murphy had ordered life nets prepared the windows fronting on the street were filled with screaming women and men, sharply outlined in black against the smoky flames. Yelling through his megaphone, Chief Murphy shouted "Jump for your lives!" while pale-faced spectators below held their breath with suspense, fearing that the hesitating figures would refuse to take the leap and be asphyxiated. Then, one by one, body after body shot down to safety.

SEE WOMAN BURN. It was in a leap from a third-story window that Mrs. Harrison met her death. She did not calculate the distance in making her frantic plunge. As she fell, a fire escape on the second floor and lay in a huddled heap. Before a fire ladder could be raised a burst of flame broke from a window and enveloped her, burning her to death before the horrified hundreds who were helplessly watching. Some of those who leaped grazed the fire escapes in their descent, turning over in midair, and they would have been dashed to death on the pavement had it not been for the agility of the life net crews.

Captain John McGowan of No. 3 Truck Company distinguished himself by his personal heroism in saving three lives single-handed. Scaling a ladder on the Golden Gate avenue side of the building in the face of a seething wall of flames, he brought down two unconscious women who had been overcome by smoke. While the cheers for this exploit were still ringing in his ears, he started up the ladder again in answer to the screams of a man who was lying helpless across a window sill.

Others who were injured were A. H. Wilson, 22, Twentieth street, burned about face and chest; Mrs. Marie McCallum, fractured ankle in leaping from second story; Robert McCann, aged 4, burns on hands; Willie McMan, aged 14, lacerations, probable concussion of the brain, right cheek lacerated, expected to recover; Miss Gertrude Kelley, burns on face and back, forehead lacerated; Miss Ethel Rivers, left foot injured; Battalion Chief Thomas J. Murphy, hands cut by glass; John Buckley, fire truck operator, eyes injured.

BODIES IDENTIFIED. The body of Mrs. Harrison was identified early this morning by her brother, Johnnie Roche, a prize-fighter, and by Policeman J. J. Cannon. Miss Daniels, who was asphyxiated in her apartment, was identified by her mother, Mrs. Mary Daniels.

WIRES CARRANZA OF VILLA'S DEATH

Mexican Delegate to Peace Conference Advised by Friends of Bandit.

WASHINGTON, July 5.—Doctor Atl, a Mexico City editor, here for a peace conference called by the American Union Against Militarism, telegraphed General Carranza last night that he had secured conclusive information that Francisco Villa died several weeks ago in Chihuahua. His informants, he said, were two Villa followers he had met in El Paso, who claimed they were with their chief when he succumbed to wounds received in a fight in the Sierras with Carranza soldiers, and had helped bury his body near Viquitas or Boquilla, Chihuahua. One of the Mexicans who told this story was named Gutierrez, Dr. Atl said. He urged General Carranza to investigate.

Mice, Imprisoned for Year, Take Corn Color

HEATHSVILLE, Va., July 5.—Last year, after building and filling a mouse-proof corral, R. S. Brent caught two mice and put them inside of it. Twelve months later, when the contents of the crib had been used, the same two mice were found alive. They were the usual mouse color when made prisoner, but when taken out were bright yellow in color. They had lived on corn, but drank no water during the year.

RADIUM SECURITY FOR 4-YEAR-LOAN

Collateral for \$250,000 in Chicago Physicians' Association.

CHICAGO, July 5.—Three tubes of radium were given as collateral for \$250,000 on four year mortgage notes today. The loan was negotiated by the Continental and Commercial Trust and Savings Bank and the Physicians' Radium Association of Chicago. Its purpose is to furnish for charitable purposes the use of radium in medical treatment.

The mortgage on the tubes of radium secures 250 notes of \$1000 each and each note matures in four years at 3 1/2 per cent interest.

"It is the purpose of the Physicians' Radium Association to acquire \$500,000 worth of radium," said Dr. William L. Baum, president of the association. "For the present the radium tubes will be rented out by the physicians to be used in medical cases. When the rentals have paid for the present supply more will be bought until we have the \$500,000 worth."

BOYS OWN "MOVIES."

HERMISTON, Ore., July 5.—Something new and original in the "movie" plan worked out by the high school lads of this place. The only moving picture theater of the town is owned, operated and managed by the students, the proceeds going to the student body for the purchasing of articles of work or play. Regular film service is handled by these student managers. The highest class of pictures, as well as educational films and lectures are featured. The girls furnish the music.

Navy Wires to Watch 'Monterey' Vessel With Refugees in Typhoon

WASHINGTON, July 5.—The Navy Department today radio-graphed all its vessels in nearby southern waters to be on the lookout for the transport Monterey. The Monterey has refugees aboard from Mexico and was last spoken as she was running into a typhoon.

Custody of Unknown Son Denied Father

JOPLIN, Mo., July 5.—George W. Arnett of Benton county, Missouri, was denied custody of Leand Arnett, 11 years old, a son he has never seen, in Judge Thomas Buckner's division of the circuit court. Arnett had asked for a writ of habeas corpus for the boy. Leand Arnett has lived with his stepfather, Fred C. Hensel, 4218 Highland avenue, five years. Hensel was granted custody of the child by Judge Buckner. The Arnetts were married in 1904. Six weeks later Mrs. Arnett left her husband. In 1911 she married Hensel. She died on March 2 and Arnett asked for the boy.

FRIGHTENED BY CURRENT.

McADOO, Pa., July 5.—Men were even afraid to shave in McAdoo because of a scare created through the grounding of the Lehigh Traction Company's feed wires, which sent current through water mains into houses, some of which were set afire. Barbers stood on rubber mats and handled their steel implements and linens with care in dread of a recurrence of the trouble. Women quit house cleaning because they feared their vacuum cleaners might be charged with trolley currents.

HOTLE TO TELL OF PLANS FOR BRIDGE

Merchants to Gather in S. F. for Report From Conference With War Department.

Details of the movement to obtain a hearing on the \$22,000,000 transbay bridge project, to unite Oakland and San Francisco will be heard Friday afternoon, when at the San Francisco Chamber of Commerce, Owen B. Hotle of Oakland, who journeyed East to place the proposition before the federal authorities, will tell of the trip and of the deliberations with the War Department. The Chambers of Commerce of Oakland, Berkeley and San Francisco will meet jointly to hear the report.

The meeting will make the preliminary arrangements for the hearing to be held by the government authorities to decide whether or not the bridge will be a menace to navigation. This decision in favor of the project, it will then be necessary to have an act passed by the state legislature to permit the work.

Hotle, who went East several weeks ago, has been in consultation with the principal army authorities, and has explained the proposition in detail. The hearing will be held by Lieutenant-Colonel Thomas H. Rees, who will call the session one month after he receives official notice from Washington to place the matter before the Washington authorities. At this hearing the nature of the bridge will be discussed, the plans mapped and opinions taken on whether or not the plan would hamper navigation.

Federal Inquiry or Railroad Strike?

Faced by demands from the conductors, engineers, firemen and brakemen that would impose on the country an additional burden in transportation costs of \$100,000,000 a year, the railroads propose that this wage problem be settled by reference to an impartial Federal tribunal.

With these employes, whose efficient service is acknowledged, the railroads have no differences that could not be considered fairly and decided justly by such a public body.

Railroads Urge Public Inquiry and Arbitration

The formal proposal of the railroads to the employes for the settlement of the controversy is as follows:

"Our conferences have demonstrated that we cannot harmonize our differences of opinion, and that eventually the matters in controversy must be passed upon by other and disinterested agencies. Therefore, we propose that your proposals and the proposition of the railroads be disposed of by one or the other of the following methods:

1. Preferably by submission to the Interstate Commerce Commission, the only tribunal which, by reason of its accumulated information bearing on railway conditions and its control of the revenue of the railways, is in a position to consider and protect the rights and equities of all the interests affected, and to provide additional revenue necessary to meet the added cost of operation in case your proposals are found by the Commission to be just and reasonable; or, in the event the Interstate Commerce Commission cannot, under existing laws, act in the premises, that we jointly request Congress to take such action as may be necessary to enable the Commission to consider and promptly dispose of the questions involved; or
2. By arbitration in accordance with the provisions of the Federal law' (The Newlands Act).

Leaders Refuse Offer and Take Strike Vote

Leaders of the train service brotherhoods, at the joint conference held in New York, June 1-15, refused the offer of the railroads to submit the issue to arbitration or Federal review, and the employes are now voting on the question whether authority shall be given these leaders to declare a nation-wide strike.

The Interstate Commerce Commission is proposed by the railroads as the public body to which this issue ought to be referred for these reasons:

No other body with such an intimate knowledge of railroad conditions has such an unquestioned position in the public confidence.

The rates the railroads may charge the public for transportation are now largely fixed by this Government board.

Out of every dollar received by the railroads from the public nearly one-half is paid directly to the employes as wages; and the money to pay increased wages can come from no other source than the rates paid by the public.

The Interstate Commerce Commission, with its control over rates, is in a position to make a complete investigation and render such decision as would protect the interests of the railroad employes, the owners of the railroads, and the public.

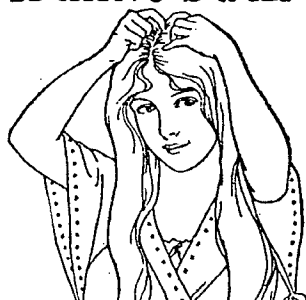

A Question For the Public to Decide

The railroads feel that they have no right to grant a wage preferment of \$100,000,000 a year to these employes, now highly paid and constituting only one-fifth of all the employes, without a clear mandate from a public tribunal that shall determine the merits of the case after a review of all the facts.

The single issue before the country is whether this controversy is to be settled by an impartial Government inquiry or by industrial warfare.

SPARK FLASHES ACROSS NATION

Ground for New Hotel at Yosemite Valley Is Broken.

YOSEMITE, July 5.—Franklin K. Lane, Secretary of the Interior, in his office at Washington, broke the ground yesterday for a new hotel in the Yosemite National Park. The distance between the national capital and California's national park was annihilated by means of the electric spark.

The Secretary of the Interior at Washington touched a button which closed a circuit and sent to California a flash of electricity which exploded a charge of dynamite planted and tamped down on the site of the new hotel.

As the blast was fired Princess Tani-nava, a descendant of Chief Tenaya, once Indian ruler of the Yosemite, released a covey of white pigeons which circled over the review stand and then flew away to join the other feathered residents of the reservation.

Woman Stands Guard While Yeggs Rob Bank

MARYSVILLE, Mo., July 5.—While a woman stood guard, three yeggmans early today blew the safe of the St. Mary State Bank, escaping with \$2,400 after wounding four persons.

NOTICE

RABIES CAMPAIGN SUCCESS IN NORTH

Thousands of Wild Animals Are Killed by State Health Board.

SACRAMENTO, July 5.—Under the direction of the State Board of Health, the rabies campaign carried on in Modoc and Lassen counties has resulted in the killing of 7162 coyotes, 450 bobcats, 496 polecats, 2602 rabbits, 2504 squirrels, 1091 dogs and 750 domestic cats.

According to the experts of the forest service, the number of known coyotes is but ten per cent of the actual number killed by poisoned bait during the winter, as their bodies sank out of sight in the snow.

In the rapid elimination of the coyotes in Lassen county, the sheep men have been saved at least 2000 sheep and lambs. In 1915 775 sheep and 1650 lambs were killed by coyotes. This year, figures are 206 each killed by coyotes.

Works One Year to Be Eligible to Pension Fund

SACRAMENTO, July 5.—Though he was eighty years old on Tuesday, July 4, S. A. Waldron, a veteran educator of this county, has just completed a year of teaching in the Nevada schools in order to be eligible under the state retirement pension law.

In a letter to the state board of education, written in a firm hand, despite his years, Waldron notifies the board that he has taught the one year required of teachers, who have been out of the department for more than two years, when they apply for a retirement pension.

It was in 1856 that Waldron commenced teaching in the state of Michigan. In 1860 he came to California and taught for nine years in the Colusa county schools. In 1871 Waldron accepted the office of superintendent of schools of Robertson county, Texas. Three years later he came back to California, and for seventeen years he taught in the schools of Los Angeles county.

When he filed his application for a retirement pension, he was informed he would have to go back to teaching for a year in order to be reinstated. So he cheerfully returned to the school room, where he had spent nearly half a century.

TOLL TAKEN BY "SANE FOURTH" 6 KILLED AND 32 INJURED TWO FATALITIES IN S. F. FIRE

CHICAGO, July 5.—Statistics compiled by the Chicago Tribune today show twelve were killed and 400 injured in Fourth of July celebrations. This is a favorable comparison with last year's record, when nineteen were killed and 903 injured.

Fatalities occurred yesterday at Athol, Mass.; Glasboro, N. J.; Jacksonville, Fla.; Lee, Mass.; Portland, Ore.; Scranton, Pa.; Toledo, Ohio; Waverly, Ohio; Worcester, Mass.; and Wheeling, W. Va. Philadelphia held the high total for number injured with fifty. Bridgeport, Conn., was second with forty-five.

Even a "safe and sane" Fourth is not without its toll of death, injuries and damage. In the bay region yesterday there occurred six deaths, 32 injuries and thousands of dollars in damage in fires, accidents and other causes.

Here is a partial list of yesterday's casualties:

DEAD.

Mrs. Hazel Harris, burned to death last night in apartment fire at 945 Golden Gate avenue, San Francisco.

One unidentified woman, burned in the same blaze.

Albert Frigoli, killed in automobile accident on road near Petaluma.

Charles A. Meyers of Oakland, died of apoplexy during Stockton celebration.

Miss Rose Herbert, run down by electric train near Larkspur.

Casimir Brunancho, San Rafael, killed by fall from a moving trolley at Fairfax celebration.

INJURED.

Miss Gertrude Loosten, 1941 Geary street, probably fatally burned in Golden Gate apartment house fire in San Francisco.

A. H. Wilder, burned about head, same fire.

Mrs. Minnie Sabine, 1223 Twelfth avenue, Oakland, burned about head in same fire.

Gladya Sabine, burned about body.

Georgia Sabine, burned about hands.

Mrs. Marie McCann, fractured ankle in leap from window during the fire.

William McCann, burns and shock.

Battalion Chief Thomas Murphy of San Francisco, hands lacerated and cut in apartment fire.

Mrs. Minnie Frigoli, fractured pelvis in auto wreck.

H. Giampolini, San Francisco, injured in same accident, cuts and bruises.

Samuel Giampolini, fractured leg.

Angolina Giampolini, internal injuries.

M. C. Kingbark, San Francisco, cut and bruised when auto hit tree on highway near San Mateo.

Mrs. Enrique Rodriguez, San Francisco, cut and bruised when automobile hit car near Belmont.

Mrs. Henry V. Tascher, Burlingame, cut and bruised when automobile overturned on state highway.

Benjamin Beck, San Francisco, may lose eye as result of playing with fire crackers.

Miss Christina Carroll, San Francisco, shot by unknown party while riding motorcycle.

Bartholomew Fanning, laborer, cut and mauled in duel when Fanning resisted arrest and wielded knife. Both went to hospital.

Policeman Robert Scott, Elmhurst station, beaten and cut by Antonio Furiado.

Antonio Furiado, Oakland, shot in leg by policeman. Furiado had attempted to prevent the arrest of a friend, and a fight followed.

Bertha Tamboury, Oakland, broken leg, result of fall from wagon on Redwood road.

Tony Reposa, Oakland, accidentally shot by Clarence Atterbury, small boy playing with pistol. Will recover.

James West, Oakland, cut and scratched in fall at Alum Rock Park, San Jose.

George Pohl, Oakland, run down by auto at Seventh and Market streets, San Francisco, cut and bruised.

Joseph Naglio, San Francisco, thrown from motorcycle in collision with bakery wagon driven by John Busvich. Both men badly shaken up.

Mrs. Charles Mills, San Francisco, riding motorcycle, collided with wagon of Mandel Cohen; two fractured ribs.

M. C. Pinbark, W. L. Brown and Mrs. W. L. Brown, cut and bruised in auto collision near San Mateo.

Calvin T. Gay, chauffeur, San Francisco, run down six-year-old

WANT NO JITNEYS ON TUNNEL ROAD

Council Ordinance Would Prohibit Their Operation There.

An ordinance prohibiting jitney buses and other automobiles for hire being operated over the Tunnel road was introduced at the City Council today, but was not passed to print, as Commissioner W. H. Edwards requested that he be given time to investigate the purpose of the bill. It will be brought up for discussion Friday morning.

Commissioner H. S. Anderson stated that the ordinance had been prepared to remove the danger from the jitney buses operating over this road, which is recognized as a dangerous one. He stated that the congestion of traffic which would be brought about by the use of the road by buses and motor stages would materially increase the danger.

Ordinances were given final passage as follows:

Creating positions of chief deputy in the city clerk's office at a salary of \$300 a month, the position being filled by the appointment of Frank Merritt, thus giving him an increase in salary, and of a stenographer at \$100 month, thus increasing the salary of Mrs. Clara Adams.

Establishing a zone in which it is unlawful to establish places for reducing or rendering animal or vegetable matter.

This ordinance leaves outside the zone the salaried janitors, where several of these establishments now exist.

Resolutions were passed approving the bonds of four companies to which contracts have been let for supplies for the current fiscal year. These companies were the Pacific Gas and Electric, for street lighting and power; the Santa Cruz Portland Cement Company, the Rhodes-Jameson Company and the Niles Sand, Gravel and Rock Company.

POLITICAL NOTES

Governor W. T. Durbine of Indiana, who is now in California, declares that Indiana will go strongly for Hughes in November. In an interview he said, speaking of the Republican nominees:

"The nomination of Hughes and Fairbanks has been eminently satisfactory to the people. Hughes is a great man and the voters of the country will more appreciate his ability when they shall have an opportunity to see and hear him in the campaign. I hope that the committee will arrange for him to visit the Pacific Coast."

Senator Thomas J. Walsh of Montana is being prominently mentioned for Associate Justice of the Supreme Court, to succeed Charles E. Hughes.

Attention is being given by Republicans to the selection of a new state central committee. In the various counties there is much activity looking to the election of representative county committees.

The direct primary law provides for the holding of a State convention of the delegates to which shall be the nominees of the party at the primaries, and delegates elected from the "hold over" Senatorial districts. This convention, which will meet at Sacramento in September, will choose the Republican State Central Committee, as well as formulate a platform and nominate the Republican Presidential electors. At the same primary election will also be elected the members of the Republican County Central Committees for every county in California.

daughter of Mrs. Annie Hedlund, Santa Clara.

John Rose, fireman, 1923 Howard, San Francisco, burned and bruised in Grant apartment fire.

DAVID, Grand Apartments, 945 Golden Gate avenue, San Francisco, burned, by fire crackers or by incendiary. Two dead, many hurt. Loss estimated at nearly \$10,000.

Four automobiles and several motorcycles damaged in wrecks and collisions about the bay.

Thirty minor fires in San Francisco, in most cases traced to the use of fireworks. Cottage of Herman Bishop, Ingleside, \$2,000; roof fire on Boys' and Girls' Aid Society home, \$50; barn, Holland Draying Company, \$100. Total damages in thirty alarms estimated at less than \$5,000.

Rocco Ravagnino, 8814 G street, had mastered the art of operating a cheap but well-known make of automobile on level road in which there were not many confusing turns. His ambitions soared to higher things, and he desired to negotiate grades and "hairpin" turns.

While practicing on a grade in Toler Heights today he came into violent contact with a large and stately pile of earth.

The light auto leaped gaily into the air, turned over with considerable grace and pitched the occupants into the pile of earth. All were badly shaken, and Rocco suffered a severe laceration of the scalp and hands.

He was treated by Dr. Jo Hamilton at the Melrose police station emergency hospital.

The automobile is a wreck.

Man, 21 Years in Jail, Faces Another Term

Frank Reel, who has spent 21 years of his life behind prison bars, is again facing a penitentiary sentence. Reel, with a man who gave his name as Frank McCormick, was arrested when attempting to break into and rob the home of Deputy District Attorney Leon Clark, 521 Boulevard way, while the family was away from home. Neighbors notified the police, and a squad of detectives captured the two men.

Reel has been out of San Quentin only nine months. He had been serving sentence for a burglary committed in Los Angeles. His record is as follows: Sent to San Quentin from Oakland in 1886 on a burglary charge for six years; arrested and sentenced in San Francisco in 1891 to Poleson for 7½ years; arrested and sentenced in San Francisco in 1910 for burglary to 7½ years in San Quentin.

McCormick was found lying in the grass near the Clark home, and stoutly maintained he had had nothing to do with the burglary. The police say they have witnesses to prove that he was Reel's accomplice. The arrests were made last evening.

JURIST VERY ILL.

UKIAH, July 5.—Judge George Startevant of San Francisco, who was stricken while delivering a Fourth of July oration at Ukiah, was brought here today. He is reported to be in a serious condition. Judge Startevant was unconscious until 9 o'clock last night.

POLITICAL NEWS

FIGHT IN MAINE IS FIRST BATTLE

NEW YORK, July 5.—Six of the seven members of the Republican executive committee to direct the coming campaign for the election of Charles E. Hughes will be Progressives. It was understood about political headquarters here today.

With this step toward further placating the former Bull Mooseers and presenting a united front in the fight against President Wilson understood to be assured, the first campaign efforts are expected to be exerted in Maine, where a state election will be held in September. At Democratic headquarters it was learned that National Chairman McCormick is also laying his lines for the opening battle in Maine, and it is evident that the first field of oratory from both sides will start in that section.

The Progressives to be selected to serve on the Republican executive committee will be Herbert Knox Smith of Connecticut; Chester H. Rowell of California; William Allen White, of Kansas; Everett Colby, of New Jersey; James R. Garfield of Ohio and George W. Perkins of New York.

Candidates Hughes came into headquarters from Bridgton today but had nothing official to announce regarding the date of his nomination or other matters. He lunched with President Jacob C. Schurman of Cornell.

At Democratic headquarters the appointment of Robert Woolley, director of the mint, as general publicity director, was announced. Secretary of the Navy Daniels arrived here from a trip through New England and expressed the greatest optimism as to the situation in Maine.

NEEDHAM WANTS TO BE SENATOR

SAN DIEGO, July 5.—A new angle has been given the senatorial fight by the announcement that former Congressman J. C. Needham is about to cast his hat into the ring. Needham served as a member of Congress from California for a period of 11 years. First elected a member of the fifty-sixth congress in 1899, he served until March 3, 1915, when he was succeeded by Denver Church.

Needham's home was in Modesto during the period that he represented the sixth and later the seventh congressional districts. Four years ago he moved to this city, where he has since resided. He was the Republican nominee for congress two years ago from the eleventh district.

During the latter years of his service in Congress, Needham was a member of the ways and means committee of the House, which committee has jurisdiction over all tariff legislation. He is considered an expert on the question of tariff.

Needham will seek the Republican nomination.

The only other Republican candidate to date is Willis H. Booth of Los Angeles. The return of Francis J. Heney to the Democratic party is believed to presage his candidacy for senator on the Democratic ticket.

Democratic Caucus To Consider Problems

WASHINGTON, July 5.—Democrats of the Senate will caucus tonight to consider the legislative problem for the remainder of the session, with a view to bringing about an early adjournment. A fight is expected on the administration shipping bill, to which there is strong opposition.

ORPET CASE HAS NEW SENSATION

Coroner's Chemist Said to Have New Evidence on Poison Data.

WAUKESHA, Ill., July 5.—William McNelly, coroner's chemist of Cook County, became the center of interest today in the trial of Will H. Orpet, accused of the murder of Marion Lambert, because of important conclusions he is said to have reached respecting the cyanide potassium spots discovered on the coat Marion wore at the time of her death.

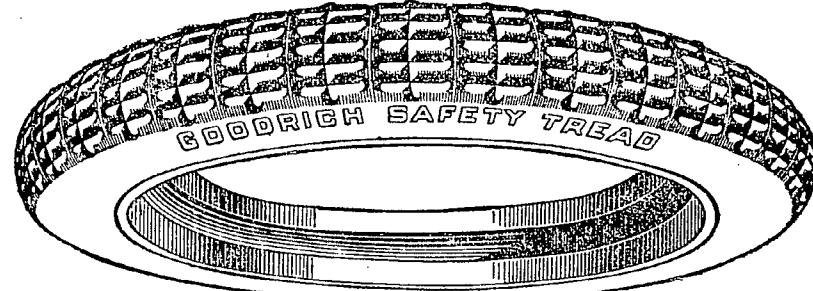

McNelly testified for the State recently and, within the last day or so, told attorneys for the defense, it is said, that he now believes the spots did not have retained the odor he noticed during the analysis he made for the four months intervening between the tragedy and his tests.

Whether McNelly would take the stand for the defense was an open question when court reconvened this morning.

Dr. William O. Krohn, an alienist, is to take the stand for the defense at today's session. He is to be asked a hypothetical question, which will include all the known facts concerning Marion Lambert and Orpet up to the time of the former's death.

Snake Victim Will Live.

UKIAH, July 5.—John Peterson, a resident of Ukiah, who was bitten by a rattlesnake while fishing on Robinson Creek Tuesday, was brought here today after surgeons had amputated one of his fingers. He walked ten miles after being bitten. He will recover.

Help us to HOLD DOWN— Tire Prices

TIRES, and GASOLINE, "make the Wheels go round!" A Car in the Garage COSTS as much as a Car-on-the-Road, but it pays no dividends, on the Investment, so long as it STAYS in the Garage.

The VALUE of the Car,—to its Owner,—narrows down, in the ultimate, to the precise number of Hours he USES that Car, yearly.

If a \$2,000 Car be owned for, say, 4 years (then sold for \$800.) there has been \$1,400 of Car-Value absorbed by the Owner,—equal to, say, \$350. per year.

If then, that Car be USED 913 Hours in the year, it would cost him but 38 CENTS per Hour, for Car-Use.

But,—if he used it only HALF that number of Hours, yearly, the Car would cost him 100% MORE for every Hour he used it.

How MUCH he uses it will depend,—to a considerable extent,—upon the PRICE of TIRES and GASOLINE.

This was one of the reasons why we (Jan. 31st, 1915) inaugurated the Goodrich "FAIR-LIST" Propaganda against High-prices, and Padded-Price-Lists, on Tires.

It is a further reason why we NOW keep our own Goodrich Prices DOWN to the very moderate "Fair-List" figures here quoted.

BETTER Fabric Tires are NOT made, and cannot be made,—at ANY price,—than are produced by The B. F. Goodrich Co.

A 15%, to 50%, higher price could well be justified for these same Tires, by fair comparison with other Tires sold at 15% to 60% higher prices.

Will you help your own interests (present and future), by further expanding the Sale of that Tire which demonstrates its Intention, through LOWERING the Cost of its Tires to you, with every INCREASE in its Volume?

Will you thus endorse, and support, the Goodrich Policy which automatically PREVENTS OTHER Makers from forcing UP the Market on Tires?

Compare Goodrich Fair-List prices, here quoted.

Bear in mind that NO Fabric Tires,—at ANY price,—are "better,"—no House more Fair, and LIBERAL, on proper Adjustments.

THE B. F. GOODRICH RUBBER COMPANY, Akron, Ohio.

LOCAL STORES—Twelfth and Harrison Streets, Oakland, Fremont and Mission Streets and 600 Van Ness Ave., San Francisco.

Goodrich "Fair-List" Prices

30x3	Ford Sizes (Safety-Treads)	\$10.40	34x4	(Safety-Treads)	\$22.40
30x3½		\$13.40	35x4½		\$31.20
32x3½		\$15.45	36x4½		\$31.60
33x4		\$22.00	37x5		\$37.35

NOTICE.—These Tires are as perfect as Fabric Tires can be made. But, should any dissatisfaction whatever arise, with any Goodrich Tire, its Owner is invited, and REQUESTED, to take the matter up promptly with us,—the Makers. He will find that Fair, Square, and LIBERAL treatment will always be extended, on all proper adjustments.

THE B. F. GOODRICH RUBBER COMPANY, Akron, Ohio.

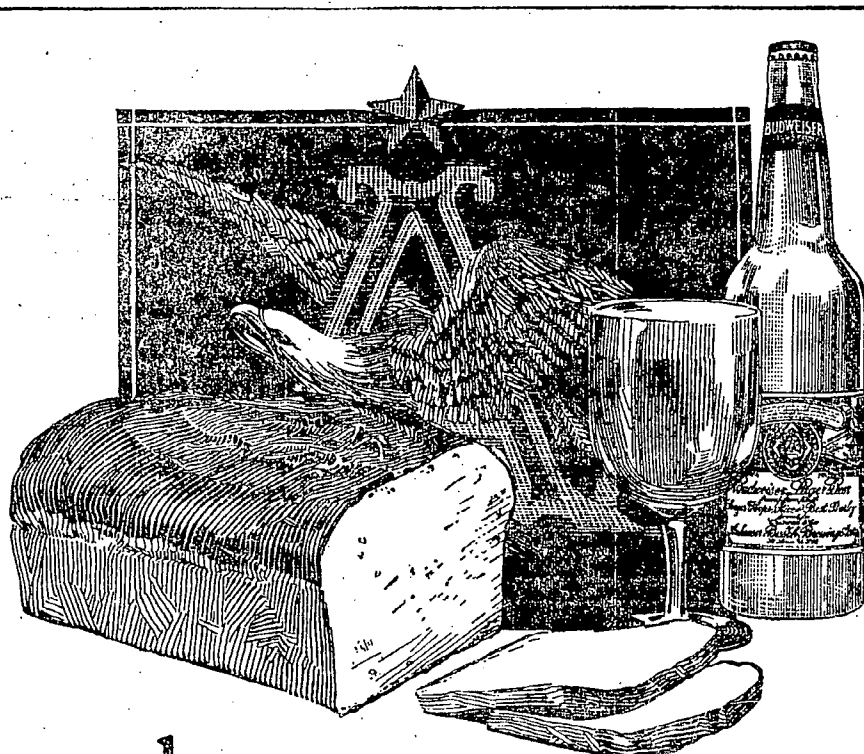

GOODRICH

Black "Barefoot" TIRES

"TEXTAN"—Does for your SHOE Soles what black "Barefoot-Rubber" does for Goodrich Tire Soles.

—Wears longer than Leather! —Is Non-slippery! —Is more Flexible than Leather!
—Is Waterproof! —Is Lighter than Leather! —Is EASIER on your Feet!

Ask your Shoe Dealer, or Shoe Repairer, for Textan Soles on your next pair of Shoes.

Budweiser Is Liquid Bread —Nothing More—Nothing Less

IT COMES only from the blended and ripened juices of the best Northern Barley and the finest tonic Saazer Hops. Americans who have globe-trotted the world say, "BUDWEISER'S Quality, Purity, Mildness and exclusive Saazer Hop Flavor are always the same—no matter whether you drink it in Hong Kong or in its home town—always the same uniform BUDWEISER—always in a class by itself."

"Bull" Durham is Pure all the Way from the Leaf to the Finished Flake

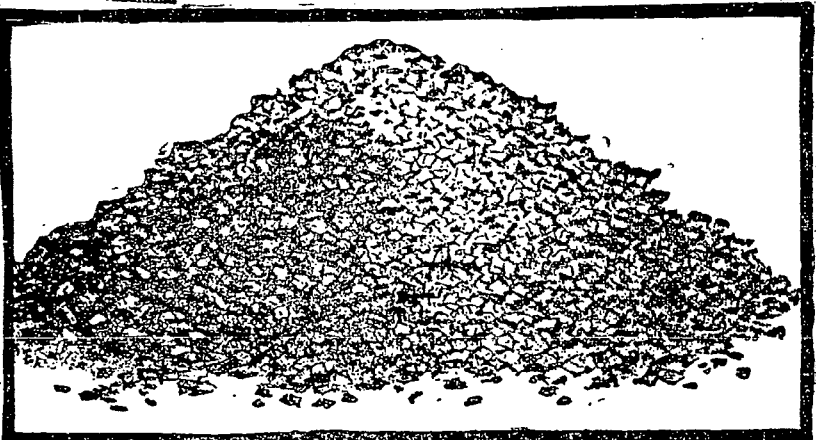

After the leaf for "Bull" Durham Has Passed Through the "Breaker."

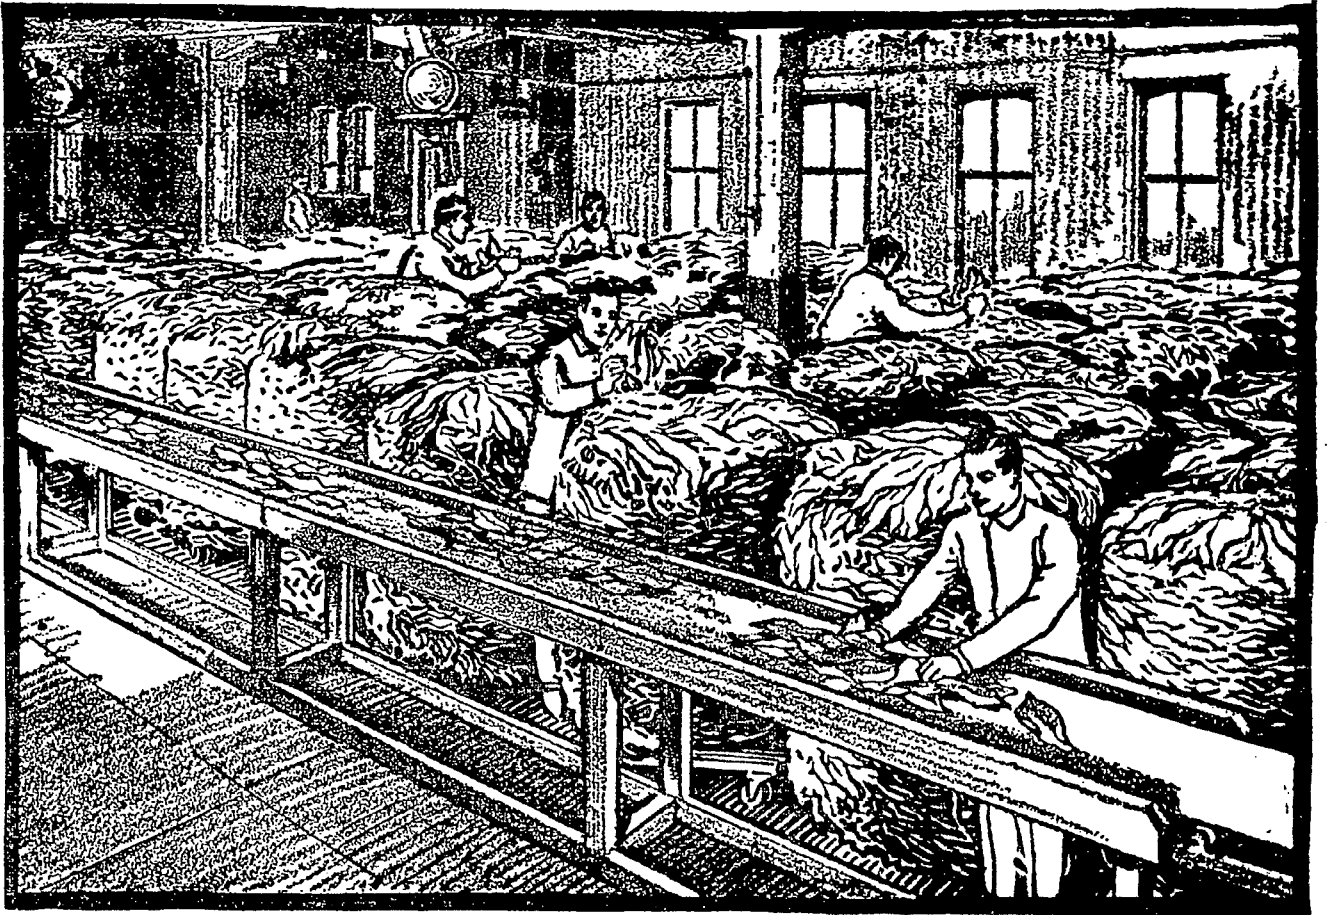

After It Has Passed Through the Third Granulator.

After It Has Passed Through the Tenth and Last Granulator.

After It Has Passed Through the Sieves—the Finished Flakes.

Where the Golden Virginia-Carolina Leaf for "Bull" Durham Starts on Its Journey.

Only Pure Virginia-Carolina Leaf Goes Through the "Bull" Durham Manufacturing System—Only Pure Tobacco Comes Out as "Bull" Durham

Grouped about a moving belt on the top floor of the "Bull" Durham factory at Durham, N. C., are giant hogsheds of tobacco leaf—107 of them.

To the eye they show a mass of color—soft, rich, golden—the distinctive, individual, matchless shades that belong solely to famous bright Virginia-Carolina leaf.

Nothing else ever goes into that big room—nothing but this pure, ripe leaf.

From each of the 107 hogsheds a certain quantity is taken and placed on the moving belt.

The hogsheds differ slightly in character. They are of different crops, are raised in different sections, vary somewhat in body and aroma. All the 107 are required to make up the wonderful blend which has made "Bull" Durham the world's best known and best liked cigarette tobacco.

The freight of golden leaf moves forward on the belt to the "breaker," then on into a series of ten granulators, and finally into a system of sieves, coming out three floors below in fragrant flakes of uniform size—the finished "Bull" Durham.

The entire operation of making "Bull" Durham, from the first "breaking" of the leaf to the final sifting of the tiny flakes, is carried on automatically inside a continuous tight-closed wooden flume.

The pure leaf is kept pure. No foreign matter of any kind can get mixed with the tobacco at any stage of its manufacture.

And that's why "Bull" Durham stands every test for purity.

You can test it yourself. Pour some "Bull" Durham on your hand or a piece of paper. Separate the grains—examine them closely. You will find only tiny flakes of pure tobacco—nothing else looks like the golden Virginia-Carolina leaf used in "Bull" Durham.

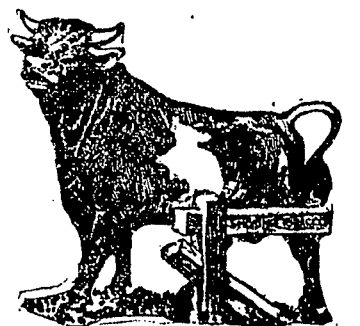

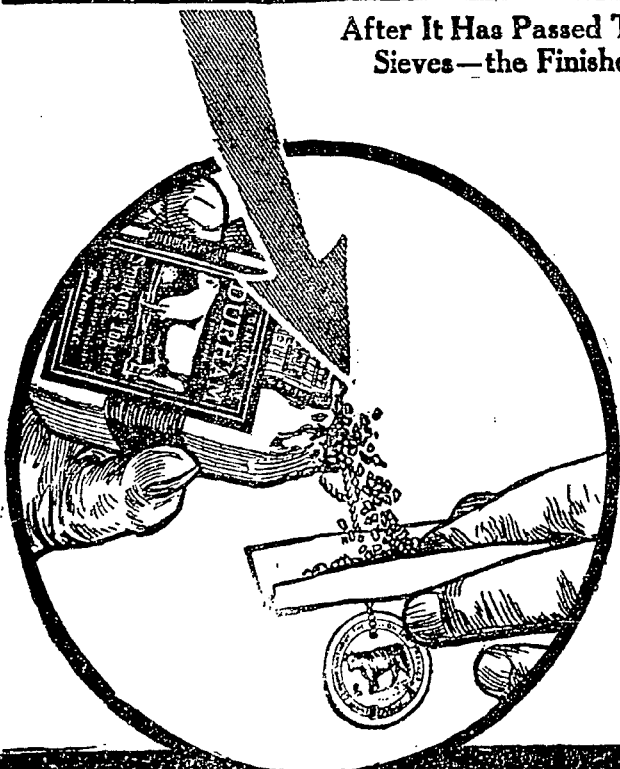

GENUINE "BULL" DURHAM SMOKING TOBACCO

Make the test today—learn to "roll your own" with "Bull" Durham. It's easy—a little practice and you'll get the knack. Then you'll quickly find that money can't buy nor machinery make a cigarette like the one you roll yourself with "Bull" Durham.

FREE

An illustrated Booklet, showing correct way to "Roll Your Own" Cigarettes, and a package of cigarette papers, will both be mailed, free, to any address in United States on request. Address "Bull" Durham, Durham, N. C.

WEDNESDAY, JULY 3, 1918.

NATIONAL DUTY AND THE CAMPAIGN.

For three years the Mexican republic has been
torn with civil strife; the lives of Americans and other
aliens have been sacrificed; vast properties devel-
oped by American capital and enterprise have been
destroyed or rendered non-productive; bandits have
been permitted to roam at will through territory
contiguous to the United States and to seize, without
punishment or without effective attempt at punish-
ment, the property of Americans, while the lives of
citizens of the United States who ventured to remain
in Mexican territory or to return there to protect
their interests have been taken, in some cases bar-
barously taken, and the murderers have never been
apprehended nor brought to justice.

Thus wrote Mr. Robert Lansing, Secretary of
State, at the dictation of President Wilson, to
General Venustiano Carranza, head of the de
facto government of Mexico, on June 20 last. It
is a disgraceful confession of tolerance on the part
of the government of the United States. Compila-
tions made up to March 10 last, when, following
the massacre at Columbus, N. M., General Persh-
ing led an expedition into Mexico, show that 245
lives had then been sacrificed to Mexican an-
archy. Mr. Lansing, pretending to comply with
an order of the United States Senate to furnish
information, gave a list of 123 killed. He did not
include the murder of sixteen men at Santa
Ysabel and of 24 men, women and children at
Columbus, New Mexico, and omitted several score
of other known murders. Since March 10 a dozen
or more raids have been made on American soil,
resulting in the murder of soldiers and civilians.
Killing has been carried on with increased vigor
in Mexico; but owing to the practice of the ad-
ministration in suppressing information, the
exact number is not definitely known.

Putting aside the treacherous attack by Car-
ranzista soldiers upon our troops at Parral and
the ambush of Carrizal, general outlawry, murder
and other outrages upon American citizens
have continued unabated. At least two United
States consulates, in violation of international
law and treaty stipulation, have been invaded,
desecrated and demolished, with Carranzista sol-
diers participating.

Conditions are more intolerable now than when
President Wilson despatched the "punitive" ex-
pedition. They are growing worse. The de facto
government deliberately is conspiring to make
them so. It is making no attempt to clear the
border of outlaws; on the contrary it has entered
into partnership with outlaws and sent its own
soldiers to further outrage against the United
States.

Yet in the face of all this, the President pur-
sues his blood-stained policy of watchful wob-
bling and announces a willingness further to ex-
change conversations with Carranza. General
Pershing's men are being withdrawn to the bor-
der. We are complying with the insolent de-
mands that our soldiers move neither to the
south, east or west in pursuit of border raiders.
Nothing is being done, and apparently nothing is
to be done, to remove the menace of pillage and
invasion from the citizens of the United States
who live and work in the vicinity of the Mexican
boundary.

If we had any assurance that these outrages
would cease and that order would be maintained
by the de facto government in the event of the
withdrawal of the American troops, every Ameri-
can would be glad to see the problem turned over
to Carranza absolutely. But past events give us
no hope that Carranza has the power to restore
and maintain order, and he has given us no in-
dication whatever that he desires honestly to make
the attempt.

As Mr. Lansing stated, these conditions have
been endured for three years. Every day of this
period has been a record of deliberate evasion of
the constitutional duty of the President which
requires that our borders be protected and the
rights of our people maintained. And now we
are faced with the miserable prospect of the
President acknowledging his remissness with
gusto and with the intention to make it a cam-
paign issue.

It was unkind sarcasm when the mayor of El
Paso remarked that he could not offer the

"peace intermediaries" Washington Park because
the squirrels were running loose, "and squirrels
are unusually fond of nuts." But Dr. Don Quix-
ote Jordan could have expected little else.

POLICY AND PERFORMANCE.

The Senate committee on military affairs has
made increases in the army bill amounting to
\$145,000,000. All of them ought to be passed,
but assuming that the Senate and the conference
with the House trim the committee estimates
\$50,000,000, which is not likely, the completed
army bill will call for appropriations of \$283,000-
000. The defense program will then call for ex-
penditures during 1916-1917 as follows:

Navy \$320,000,000, army \$283,000,000, fortifi-
cations \$30,000,000, deficiencies \$36,000,000, mili-
tary academy, \$1,656,000; in all approximately
\$670,000,000.

When we add to this unprecedented figure to
be spent on national defense the appropriations
of the regular annual bills and the annual install-
ment to be expended under the good roads, rural
credits, deficiency, nitrate plant and shipping
bills, we find that the grand total of appropria-
tions will call for about \$1,600,000,000 of revenue.
This is \$485,000,000 more than was authorized
for governmental expenditures during the fiscal
year closed June 30—the high water mark in
federal expenditures at that time.

In devising means to raise revenue to meet the
big outlay during the current year, Secretary of
the Treasury McAdoo, after consultation with the
President and administration leaders in Con-
gress, has determined to put all the extra burden
on the people. Direct taxation will be carried to
an unprecedented limit. At the same time the
need of protection for domestic industry against
destructively cheap competition from abroad is
acknowledged, even by the Democratic leaders.
The revenue bill drafted by the administration
contains these features: Creation of a tariff com-
mission, an increase of the tariff rates on dye-
stuffs to protect an infant American industry,
and an unfair competition clause to prevent for-
eign manufacturers from "dumping" their prod-
ucts in this country.

Since the Democrats long ago adopted as a
party doctrine "tariff for revenue," and since
they in the St. Louis platform and in the draft
revenue bill now before Congress have accepted
the idea that American industries must be af-
forded protection against foreign competition, it
would seem a most desirable time to raise the
tariff schedule on imports. The country needs
revenue and it needs protection. Yet the admin-
istration plans to hold protection in abeyance and
to make "the common people" dig up the needed
revenue.

THE BAY BRIDGE PROJECT.

The project for constructing a bridge across
the bay to connect San Francisco and Oakland
and Alameda, has been presented to the federal
government and the War Department has or-
dered an investigation of the feasibility of the
plan. A board of army engineers is expected
shortly to take up the work of making surveys of
engineering problems, and the effect of such a
bridge, if constructed, upon navigation in the bay.

It will be some time before the army board
makes its report, judging from records on other
projects, but there appears in the published plans
of the commission of civilian engineers who are
promoting the project nothing to indicate that
the bridge will interfere with navigation or that
any unusual or debatable engineering features
will be attempted. We believe that the govern-
ment engineers will approve the plan without
substantial modification.

It is therefore proper that the residents of the
communities on each side of the bay keep up
their interest in and study of the project. It will
doubtless have a big influence on the communi-
ties when completed and the people will be called
upon to say whether or not they want the bridge.

AUTOMOBILE COMPETITION.

(From Western Engineering.)

Two years ago the jitney was unknown, a year ago it
was a joke, today it is a problem. This is especially true
in California, where the millions that have been expended
on good-road construction have provided rights-of-way
and perfect roadbeds without cost to the jitney operator.
Even municipal jitneys, the bête noir of the privately-
owned companies, have become more or less of a side
issue as a thorn in the side of the capitalist. The inter-
urban bus, a comparatively new factor in the field of
motor transportation, is in a fair way to perform a capital
operation upon the earnings of the suburban steam and
electric rail lines. Experts in the calculation of operat-
ing costs are still unable to see how 5-cent fares can
return a profit to the jitney operator. This is a question
that time alone will answer, but there seems to be no
doubt that motor-buses operating over State highways or
other improved roads are an economic success, provided
that competition among their own kind does not ulti-
mately make them self-destructive. As fast as a new sec-
tion of State highway is completed, it becomes infested
with bus-lines. Interurban electric railroads find their
revenue diminished in direct ratio to the amount of bus
competition. Steam lines also have suffered severely.
The Colusa & Lake railroad has given up the ghost and
the remains are soon to be sold for the benefit of the
creditors. The Yreka railroad, we understand, is in little
better condition. In fact bus-competition is becoming so
severe that it is actually commencing to affect through-
traffic. Several stages are now in operation between San
Francisco and Los Angeles, charging lower fares than the
rail lines. While the schedule is too slow for the business
traveler, the ride itself is attractive to those who are on
pleasure bent and have the time to spare. Freight traf-
fic also is commencing to show signs of being diverted
to the motor truck. The latter's greater flexibility offers
a decided advantage on short hauls for both express and
package-freight. In every department of the business,
established transportation companies are losing revenue
by reason of automobile competition.

NOTES and COMMENT

Hetty Green was awful rich and
awful saving, but probably we should
take most of the stories of her miser-
ly thrift cum grano sals.

Our first war with Mexico lasted
two years and sixteen days. "This
time," predicts the Santa Ana Blade,
"we will be lucky if we get out in
five years."

"Oakland officer blames war for
loss of his dog." Thus it is seen how
disastrous this war is. It is simply
impossible to approximate its terrible
consequences.

There are college presidents and
college presidents. There is Nicholas
Murray Butler and there is David
Starr Jordan, and somewhere there is
Benjamin Ido Wheeler.

Looks as though there might be
something doing about a great enter-
prise now. The war department has
ordered army engineers to survey the
problems involved in bridging the
bay.

Ordinarily one day's strict attention
to joy-making will satisfy, but this
time it will require two days for Cali-
fornia Republicans to fully express
themselves as to what happened at
Chicago.

The Acheson Globe says: "From
the time a boy believes his father is
the smartest man on earth until the
time when he thinks the old man
does not know much is not such a
long while."

Maybe this is somewhat pointed,
but anyway it is from the Chico En-
terprise: "The Red Bluff man who
is starting a thoroughbred skunk
ranch should send to Sacramento for
a few state warrant shavers."

Notwithstanding the near prospect
of real fireworks in Mexico the sol-
dier boys mobilized thereabouts
paused to shoot off toy pyrotechnics
on the Fourth, after the manner of
exuberant Americans generally.

Francis J. Heney, in his letter, says
he cannot follow Roosevelt "back"
into the Republican party. The word
"back" may be appropriate to Roose-
velt, but not to Heney. He never was
there, so how could he "follow back?"

"What will happen when the great
conflict now raging is ended?" The
question seems to have the purpose
to throw a scare, but let us take it
for granted that nothing can happen
that will compare to what is hap-
pening.

The Woodland Democrat, federal
brigade appendix, refers to W. H.
Crocker as "San Francisco banker
and reactionary Republican." Which
about illustrates the Democratic at-
titude—intolerance of bankers and
Republicans.

Twenty-five trenchings in the United
States the first half of this year. But
there were thirty-four for the same
period last year, so that those who
are given to looking at it in that way
may argue that we are steadily pro-
gressing toward a higher civilization.

A book canvasser has been arrested
for working through the mails. First
we knew they could get away with
it that way. All are familiar with
the canvasser's irresistibility in pro-
pria persona, but that he is able to
administer absent treatment is new
and alarming.

We read that 746,537,329 fish have
been planted in California waters, and
when we remember having clambered
along mountain streams for miles
without encountering a half dozen of
them we realize the significance of
that oft-repeated cynicism as to what
figures will do.

Twenty-three states and the Dis-
trict of Columbia furnished volunteer
troops in our last war with Mexico.
That was seventy years ago, and we
have grown some in the meantime.
The only states at that time west of
the Mississippi were Missouri, Arkan-
sas and Louisiana. Iowa was ad-
mitted that year.

We are gravely informed that San
Francisco may get the 1920 conven-
tion of Greeters of America. How
important this convocation is and
what it is, may be judged when it
is explained that the Greeters of
America are hotel men—those persons
who tuck us away in modern car-
nivaleries and by various methods
keep us from feeling lonesome when
we are on our way.

The Nevada point of view as to
matrimony is always interesting, hence
we reprint this from the Goldfield
Tribune: "Mrs. Madeline Force-
Astor is giving up nothing; she is
just exchanging millions and she sim-
ply prefers the millions with the live
man attached to the millions with
the corpse. Her choice is really very
simple, as every woman knows, and
she deserves no honors for making it.
She is giving up nothing."

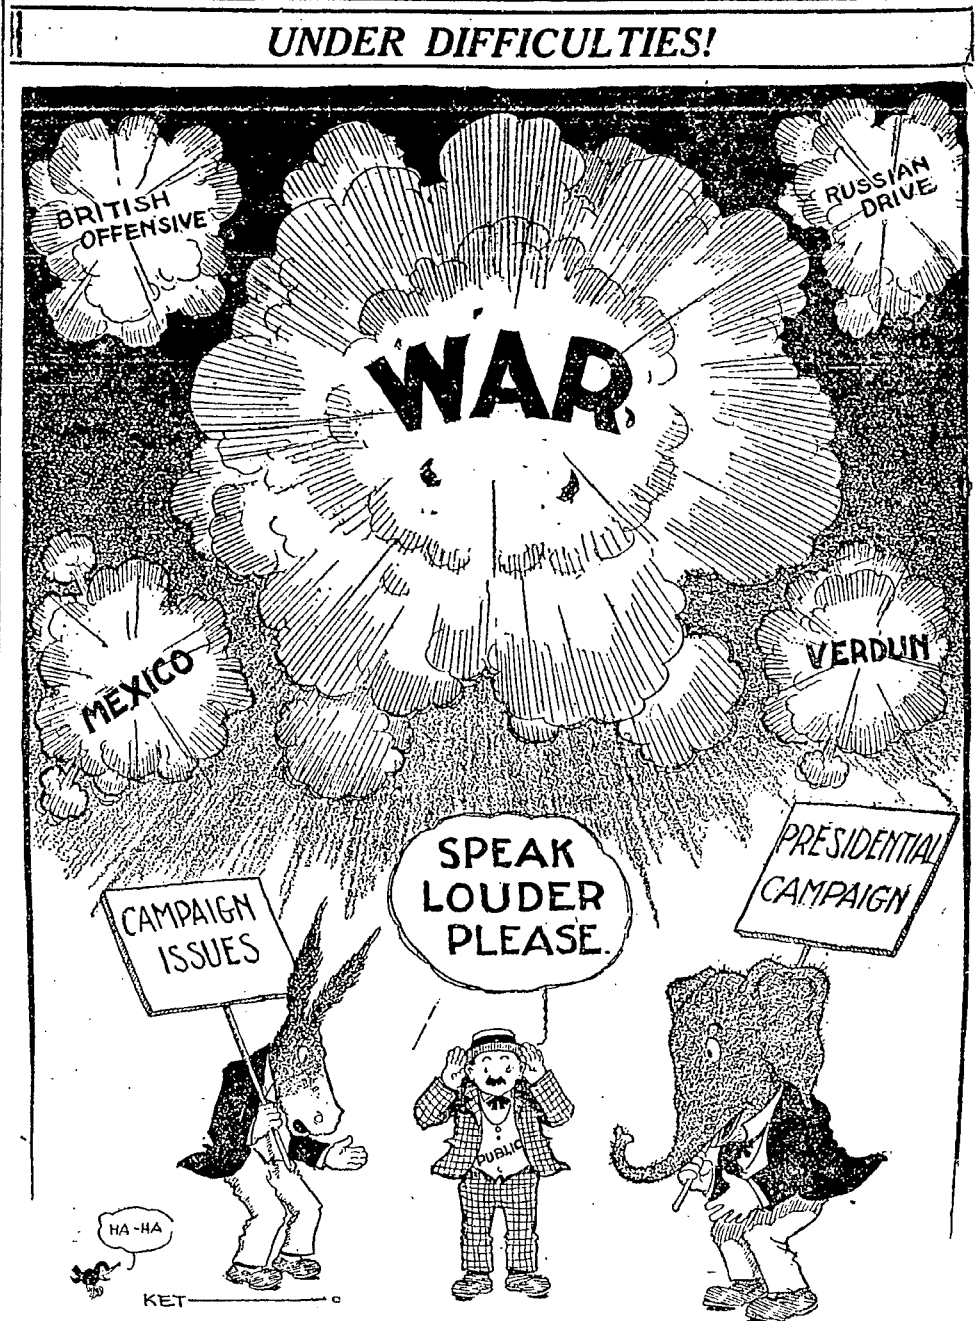

SPIRIT OF THE STATE PRESS

"Sense that word 'bully,' but did
you notice that Governor Johnson's
recent association with the Strenuous
One made him come back home and
yesterday call our soldier boys over
in Sacramento 'bully' Californians?"
—Stockton Mail.

The new chairman of the Demo-
cratic national committee was once a
football star at Yale. But he never
backed a line so impregnable as that
which the Republican party presents
this year.—Auburn Republican.

Dried peaches are selling at 5 cents
to the grower and threatening to rise
to 6 cents. Last year the price of
peaches in many places did not justify
picking. The Peach Association seems
to have made good with a rush.—
Concord Transcript.

Food supplies in Mexico are re-
ported as very short. We are going to
have to whip them and then feed them.
It is the old, old story of the
white man's burden.—Santa Ana
Blade.

GOLD IN THE TEETH AS A CHARM

Wear gold in your teeth and have a
passport for heaven. This is an Indian
legend. It comes from the River Tigris,
in Mesopotamia, where British Indian
troops are fighting the Turks.

Many of the Indian Sepoys, fighting in
Mesopotamia, are "Jats," a people of
Northwest India. "Jats" wear gold in
their teeth if they can possibly afford it.

If a newspaper correspondent drew
the legend from one of the Indian sol-
diers is told in a dispatch direct from the
Tigris.

Tara, a "Jat," of five years' service in
the Indian army, was called into the
commanding officer's tent to explain why
"Jats" wear gold in their teeth. The
Sahib wants to know, the officer ex-
plained to Tara.

"For the sake of appearance, Sahib,"
responded Tara. "To give them an air."
"Is there no other reason?"

Tara pondered a moment and slowly
spoke:

"There is a saying among my people,
Sahib, that he who wears gold in his
teeth must always speak what is true.
Gold in the teeth stops the passage of
lies."

"But you have no gold in your teeth?"

"No, Sahib."

"Is that why you tell the tall story
about all these Germans you killed at
Festubert?"

"No, Sahib," Tara smiled, "it is true
that I killed ten between two traverses."
"I have heard a story about gold help-
ing a 'Jat' to heaven," observed the com-
mander.

A gleam of reminiscence sprang into
the eyes of the Sepoy. Then he delivered
himself of the legend.

"Gold," he explained, "is a passport to
the other world as in this. It is not
safe to carry it on the finger or in the
ear, where it might be detached, so it is
worn in the teeth."

Thus the legend came out for the re-
minder of the world to ponder over.

The "Jat" is the best type of Indian
fighter. He was primarily a farmer, but
conditions made him a fighting man.

It takes more than an ordinary enemy
to take a position away from a regiment
of "Jats." They fight to the death.

"Jat" regiments fought in France as
early as November, 1914. They arrived
at a critical moment and were thrown
into the teeth of the fighting. The enemy
was halted wherever the "Jats" were
concerned.—London Exchange.

WHY DO MEN GROW OLD?

To the question, "Why do we grow
old?" many answers have been given.
Menschalkoff suggested that we are poi-
soned by the absorption of the products
of bacterial activity in the large intes-
tine, for this brings about hardening of
the walls of the arteries and also cor-
rupts our bodyguard of wandering amoeb-
oid cells so that they become traitors,
turning upon the cells of the central ner-
vous system. Others have suggested other
modes of auto-intoxication. To some it
has seemed enough to refer to wear and
tear of hard-worked organs like brain
and heart, liver and kidneys, for a chain
is no stronger than its weakest link.

Others have referred to the wearing ac-
tivity of the all-important organs of in-
ternal secretion, and others to the im-
portant fact that there is no multiplica-
tion or replacement of the cells of our
central nervous system after a very
early date in our life. It may be pointed
out, however, that most, if not all, of the
theories break down because they do not
admit of all-round application. Thus it
is plain that many animals that are not
troubled with a large intestine neverthe-
less grow old. Furthermore, the theories
seize on symptoms rather than on causes,
for while it is good sense to refer to wear

and tear, the question arises why all an-
imals do not exhibit the perfect recupera-
tion to which some at least have attained.

Professor Child of Chicago has been
working for fifteen years or more with
simple creatures called Planarian worms.
One of the features of their life which
he brought to light is their capacity for
periodically becoming young again. Thus
it often happens that a Planarian sepa-
rates off the posterior third or quarter
of its body, which speedily grows into a
whole, while the diminished original heals
itself and grows a new tail. When a
Planarian is starved it can continue liv-
ing on its own resources for several
months. Its cells become smaller and
they also become fewer, but life is not
sundered. Such facts have led Pro-
fessor Child to a survey of the animal
kingdom, the result of which is to show
that there is a much wider occurrence of
rejuvenescence than has been hitherto
realized. It occurs especially in connec-
tion with vegetative multiplication, for
there are other occasions in which the
creature becomes younger in whole or in
part by lying low for a season. Perhaps
this may be part of the value of pro-
cesses of dying back and rearrangement
which occur in winter in some animals
and in many plants.—London Nation.

THE JESTER.

TWENTY YEARS AGO TODAY

The police court docket yesterday
morning showed that Oaklanders are not
celebrating the Fourth as of old. Only
twenty-one arrests were made in three
nights.

Mrs. George E. Perkins has returned
from San Jose.

Mrs. W. Wiley and Miss Mildred Ahl
are visiting Miss Myrtle Riddle of Colusa.

Mr. and Mrs. C. D. Borland have re-
turned from Stockton.

Mr. and Mrs. D. H. Kinsey and daugh-
ter, Mr. and Mrs. H. H. Hall and Miss
Harriet Saunders are occupying a cottage
at Pacific Grove.

Miss May McLean of this city has left
for New York to spend the summer with
relatives.

Professor and Mrs. Bacon of the Uni-
versity of California are at Coronado.

THE OLDEST UNDERGRADUATE.

A man seventy-two years old has mat-
riculated at a Western college. It re-
mains to be seen whether he has en-
tered with an honest desire for an edu-
cation which will enable him to amount
to something in life, or merely to fritter
away his time in football and track ath-
letics.—Cleveland Plain Dealer.

DYE INDUSTRY IMPERILED.

Japan will subsidize all corporations
and firms manufacturing dyes. The only
condition precedent is that at least one-
half the capital for such enterprises shall
be provided by Japanese subjects. Sub-
sidies will in all cases where granted
run for a period of ten years and will be
on a basis to enable firms in the dye
business to pay 8 per cent dividends
during the subsidy period. Firms able
to pay such dividends without govern-
ment assistance will be unlikely to share
in the subsidy provision.

This step, and somewhat similar action
being taken in England, will strike a
hard if not a fatal blow to the German
dye-making industry. Presently the
American markets will be invaded by
Japanese and English-made synthetic
dyes. When the European war ends and
Germany attempts to recover lost dye
markets there will be a lively competi-
tive scramble for the American market
and a temporary result may be an abun-
dance of dyes at low prices.

But this is only one consequence. With
a flood of low-price dyes coming from
abroad the infant American dye industry
will be smothered to death, leaving the
industries of this country just where
they are today and where they have been
since the outbreak of the European war,
at the mercy of foreign nations, unable
to get needed dyes except in dribbles in
the event of wars.

Since the dye situation became acute
in this country the Democratic party has
taken no legislative step to foster a dye-
making industry in the United States.
In fact it has taken no legislative step
to help make the United States indus-
trially self-sufficient.

Only a political party committed to
the doctrine of protection can be trusted
to deal with such a situation as this—
Detroit Free Press.

MORNING IN A COUNTRY LANE.

Sunlight dancing on the willows
Waving slowly in the breeze,
Clover nodding to the zephyrs
And the kiss of humming bees;

"Bob White" calling low and loving
To his mate hid in the grass,
Cattle, sleek and plump from grazing,
Sighing softly as they pass.

Lake a winding, verdant serpent,
Glinting in the morning light.
See the creek in beauty gliding,
All its ripples flashing bright;

Hear their laughter and their prattle,
As the children blithely and gay,
Loitering without intention,
Schoolward slowly make their way.

Pearls of dew are all a-glitter
On the grass along the road,
Bending low and swaying slowly
With its precious, shining load;

And the lazy dew is smiling,
While its dew damp, motley face,
Crossed with tracks of birds and rabbits
Beams with a contented grace.

Just to stroll along the windings
Of this lovely country lane
Makes one feel as though he entered
Some old sacred, rural fane;

Lost for ages, through his sinning,
To the ken of careless man;
Shrine where dryads meet to worship
Heeded by their piper, Pan.

—Jesse H. Harrison in Springfield Re-
publican.

CAN DO WITHOUT IT.

Government scientists have decided
that mistletoe is a forest pest and ought
to be exterminated. However, inventive
genius ought to be put to the task
of devising a synthetic mistletoe suit-
able for any emergency, if the stuff is
really necessary in this age of advanc-
ing ideas and efficient methods.—Providence
Journal.

fitting leaves nothing.—Los Angeles Times.

SHOT ENDS CALAVERAS CARD GAME

Compton Vaughan, Man
of Mystery, Under
Arrest

Geo. Barnett, Laborer,
Is Slain by
Bullet

During a quarrel over a card game in the work camp at the Spring Valley Water Company's Calaveras dam early this morning George Barnett, a laborer, was shot twice by Compton Vaughan, a well educated and mysterious stranger, who went to work last Monday and who told the authorities that he had come to this country five months ago from South America. He claims to be a graduate of Princeton University in the college of law, but says that he never practiced his profession.

Barnett died this afternoon. Vaughan was arrested by Constable Larkin Locke of Pleasanton, who rushed the wounded man to the county infirmary and lodged the prisoner in the county jail. Dr. C. A. Willis performed an operation on Barnett, but it is said that the patient has little chance of recovery.

Confronted by Vaughan at the infirmary, Barnett pointed him out as his assailant and made a signed statement implicating the prisoner as his assailant before Deputy District Attorney A. A. Rogers. Detective George Helms and Deputy Sheriff Joe Soars.

Barnett was shot twice through the stomach. He formerly made his home with a brother at 1400 South Main street, Los Angeles.

At the county jail Vaughan, who is 32 years of age and of unusual good appearance, admitted the quarrel to the officers who questioned him. He declined to say much about himself and asked pointedly whether he did the shooting, said that he did not remember.

"I was banker in the card game," he said. "When we came to making a settlement, Barnett had about 75 cents due him. He claimed \$1.50. We entered into an argument, and finally he started for me with an iron bar in one hand and a pistol in the other. I grappled with him. That's all I remember."

According to Constable Locke, Barnett was shot with a revolver that belonged to a partner of Vaughan. There were many witnesses to the shooting and signed statements are being taken from them today by Deputy District Attorney Myron Harris. There are several points about the affair which the officers have not yet cleared up, but it is believed that the depositions of the witnesses will straighten out the circumstances.

Worries Prompt Man
to End Life With Shot

SAN FRANCISCO, July 5.—"Disappointments in business and in friends I love dearly, and in everything true and sacred to me, and made to suffer more than any human being can stand, my nerves do not work any longer. I have lost everything to make life worth living for. I have nothing to love, so I end it all."

This note, addressed to the corner and signed "Carl L. Haas," was found this morning on the body of a man 50 years old, who had killed himself on the ocean beach at the foot of N street. Haas has been living at the Hotel Regent, 123 Sutter street. He informed the desk clerk yesterday that he had had a quarrel with a friend and that he was feeling very despondent.

City's Citizens Welcome Natal Day Sky Lighted in Blaze of Fourth Glory Auditorium and Lake Both Crowded

Colored stars, bright rockets and streamers of fire hung above Lake Merritt while illuminated boats glided over the dark waters last night and the red, white and blue was flashed in the sky in pyrotechnic display as the wind-up of the city's celebration of the Nation's birthday. The big fireworks display and the "people's ball" at the Auditorium, where thousands danced, were the closing events of one of the largest celebrations Oakland has ever held.

From morning until late at night every minute saw a new attraction. Boat races, athletic contests, the monster parade of the morning, literary exercises and music were among the special events of the day. Lake Merritt was the center of interest both afternoon and evening and the Auditorium was filled to overflowing as the literary exercises, and later, the ball, were held.

THOUSANDS SEE FIREWORKS.
The fireworks started just after dark—about 8:30 o'clock—and the big public ball in the Auditorium opened at the close of the display, about an hour later. Thousands of people thronged the shores of Lake Merritt as experts, working from a platform in the water, set off the big rockets and special display pieces.

California-Nevada Tax Total Is Large

WASHINGTON, July 5.—A table issued by Secretary of the Treasury McAdoo shows that four states—New York, Pennsylvania, Illinois and Massachusetts—paid more than \$85,000,000 of the \$124,867,429 in income taxes turned into the national treasury during the fiscal year of 1916, which ended June 30. California and Nevada, comprising one internal district, paid \$1,927,855 in income taxes and \$1,493,389 individual taxes.

Mine Superintendent Found Dead in Lake

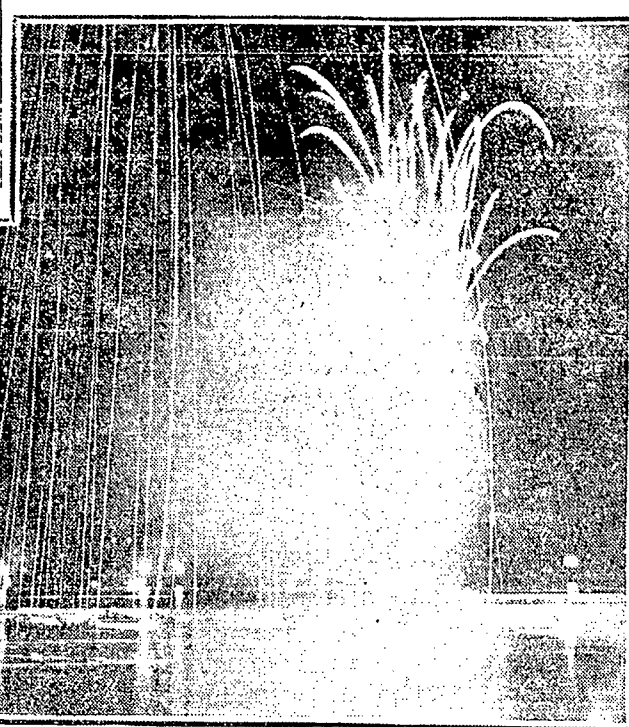

NEVADA CITY, July 5.—The body of Arlin E. Farmer of Chicago, superintendent of mines in Mexico and Chile, was found today in Olympia park lake. He was drowned last night. Kenner came here July 2 to take charge of the big Murchie mine.

Institution for Women to Hold an "At Home"

The sixth "At Home" of the East Oakland Home for Stranded Women and Girls, an institution endorsed by the Associated Charities, will be held tomorrow evening at 1435 Third avenue and will be attended by a number interested in the enterprise. The affair will be a watermelon social, preceded by a program starting at 8 o'clock. Mrs. Anna Williams Hunker is the president and Mrs. Nellie Bunker the vice-president of the board of directors.

289 Mexican Refugees Reach New York City

NEW YORK, July 5.—The Spanish line steamer Montserrat, with 289 passengers aboard, most of them refugees from Mexico, reached here today from Vera Cruz and Havana.

Fairy forest of fire which rose on Lake Merritt at July Fourth celebration.

DR. DODDS IN COURT MAY SETTLE CASE

Physician Extradited From
Arizona on Wife's War-
rant; May Pay.

Dr. Thomas W. Dodds, former Oakland physician, who was brought back from Phoenix, Arizona, last night under arrest on a charge of failure to pay his wife, Florence Dodds, \$250 a month separate maintenance, as ordered by Superior Judge T. W. Harris a year ago, appeared before Superior Judge Stanley Smith this morning and by stipulation of attorneys for both sides the case was continued for one week. It was stated that in the meantime an effort will be made to effect a financial settlement between the couple.

Mrs. Dodds, in her suit against her husband, complained that he had treated her as a servant in their home at 2046 Twenty-fourth avenue and that he had allowed his mother to "boss her around."

In addition to that she claimed that he had transferred his property to his mother and pleaded poverty in his efforts to avoid a division of his alleged wealth with his wife. Mrs. Dodds sued to recover the family home and was successful in her action.

Dr. Dodds left Oakland several months ago and when his wife finally located him she swore to a complaint and had him extradited. He was returned last night by Inspector Duffon of the Oakland police department.

Dodds, in answer to his wife's charge, claims that she knew he was going to Arizona, where he had accepted a position with a mining company as doctor. His salary was to have been \$55 a month, according to the accused, and this, with private practice, would have netted him enough money to send \$50 to the wife and child each month. He is out on \$2000 bonds.

STRICTLY PERSONAL

S. H. Kitto, cashier of the First National Bank, is on his way to the high Sierras for a three weeks' vacation. He makes the trip yearly, with the Sierra Club.

Mrs. Henri Hus, of Sumatra, wife of one of the noted players there, is a visitor at the Hotel Oakland. She is making a tour of the state, and will be in the bay region for several days.

D. G. Deltrichsohn, master of the German steamer "Oeto," now laid up for repairs at local shipyards, is a guest at the Hotel Oakland, where he will live until the vessel is ready again to sail. He is one of the best known navigation men in Europe, being identified with many important shipping ventures as well as a navigator of note.

W. W. Gurley, of Chicago, an officer in the Coos Bay Lumber Company, is an Oakland visitor on business. He will be at the Hotel Oakland for several days.

Three generations arrived at the Hotel Oakland today, where three New York women completed a motor trip across the continent, ending their journey at the Hotel Oakland. They are Mrs. T. V. Whitmore, her daughter, Mrs. C. L. Thorne, and her granddaughter, Miss A. R. Thorne. Mrs. Thorne drove the machine. The trip was made by easy stages and without trouble, according to the travelers, the roads being good save in a few spots in Nevada and other parts of the middle west. They will return to New York after a few weeks' visit here.

POLICEMAN CALLED UP BEFORE CHIEF

Scott Asked for Explanation
of Ferada Shooting; May
Be Censured.

Patrolman Robert Scott, who last night shot down Antonio Ferada when Ferada was running away, was called on the carpet by Chief of Police Walter J. Petersen today to explain why he used his revolver in a case where only a misdemeanor had been committed. Ferada was shot twice, being wounded in the leg and thigh.

Chief Petersen also ordered Lieutenant W. F. Woods of the Melrose station to make a thorough investigation of the shooting and to prepare a report on the matter. It is probable that if the facts are as stated by Patrolman Scott in his original report he will be disciplined by a fine or by suspension from the department for a period to be determined upon by Chief Petersen. Patrolman Holman was dismissed from the force last year for shooting a drunken sailor without due provocation.

Patrolman Scott's report of the shooting fails to show that he was justified in shooting Ferada. According to the report, Scott was called to 1231 Eighty-eighth avenue by Joseph Mesviero, who complained that Joseph Castro and his son had been annoying him.

Scott placed Joseph Castro Jr., the son, under arrest. The father interfered, and in the altercation the boy broke away and made his escape. Scott then attempted to place the father under arrest, but while he was doing so, Ferada, a friend of the Castro family, came between him and struck him.

After striking Scott, Ferada started to run away, as Scott had released his hold on the elder Castro and had allowed him to escape. Enraged, the policeman drew his revolver and fired at Ferada, inflicting two flesh wounds.

Ferada was taken to the Receiving hospital, and after the wounds were dressed was removed to his home. He is charged with resisting an officer and was arraigned this morning.

The elder Castro was later captured by Patrolmen Scott and Deardorff. He has been charged with battery and interfering with an officer.

WHAT IS DOING TO NIGHT

Wires to Sheriff, "Come Get Me"

Oakland Man Arrests
Himself

Ralph Berger is having himself arrested today. He is waiting rather anxiously for the appearance of Sheriff Welsendanger of West Chester county, New York, who will take him east on a charge of wife abandonment. The sheriff came west for the purpose of picking up a Richmond man, accused of murder in New York state. In some miraculous manner, Berger heard of the trip to California. He has been living here for some time, but the pangs of homesickness seized him and have been seizing him for some time, and he longed for home and jail.

Practically he telegraphed to the Eastern sheriff, who is a personal friend, to come and get him. He waived extradition over the wire. The sheriff, always glad to accommodate a friend, is here, and Berger will leave soon for home. He is very happy to see his wife, for he is going home.

New Publicity Man Outlines His Ideas

Eugene Powles, new publicity director for the Oakland Chamber of Commerce, assumed charge of his office today and will at once reorganize the department and start a number of important publicity campaigns to place Oakland before the people of the East. Powles is a publicity man and newspaper writer of wide experience. He has been on the staffs of large newspapers on the coast and in the East, and has handled a number of large publicity campaigns for public and private interests.

Under his direction special effort will be made to place Oakland before the Eastern investors in factory sites and industries, as well as before the tourist, by articles in Eastern papers and magazines. He was introduced today at the manufacturers' committee luncheon, where he briefly outlined his plans for factory exploitation.

Blames "3d Degree" for Husband's Death

SAN FRANCISCO, July 5.—Charges that Chicago police caused the death of her husband by kicking him in the stomach during a "third degree" while he was under arrest there six months ago, were made today by Mrs. Herbert Cavitt, widow of the so-called "clairvoyant big boy" of the city, who died in a hospital here. His malady was diagnosed as cancer of the stomach. The coroner has ordered an investigation.

At the time of his death Cavitt was facing trial on a charge of swindling Antonio Spalletta, Petaluma rancher, out of \$5000. He was captured in Chicago after leaving San Francisco and made a hard fight against extradition.

In low neck, no sleeve models. Both plain and lace trimmed. Thorough values. —Knit Underwear Section—2d Floor

The Bethlehem Steel Company's Offer to Serve the United States

At a time when the expenses of the Government are so enormous—

Isn't it worth while finding out the actual facts before plunging ahead into an expenditure of \$11,000,000 of the people's money for a Government armor plant?

To clear up the whole situation, and to put it on a basis as fair and business-like as we know how to express it, we now make this offer to the Government:

The Bethlehem Steel Company will manufacture armor plate for the Government of the United States at actual cost of operation plus such charges for overhead expenses, interest and depreciation as the Federal Trade Commission may fix. We will agree to this for such period as the Government may designate.

The House of Representatives voted down a proposal to empower the Federal Trade Commission to determine a fair price for armor, and allow private manufacturers opportunity to meet that price before the Government built its plant.

Isn't our proposition fair and ought it not to be accepted?

The measure is now before the United States Senate.

CHAS. M. SCHWAB, Chairman.
EUGENE G. GRACE, President.

OAKS LOSERS IN SEE-SAW GAME AGAINST TIGERS

Higginbotham Almost Wins the Afternoon Contest in Southland

LOS ANGELES, July 5. — Ham Paterson and his wild animals chased at least the little Oaks yesterday and handed them a double beating, shutting them out in the first inning and winning the afternoon contest 2 to 0.

For the first seven innings of the afternoon game it was neck and neck. Then the Oaks scoring a run and the Tigers coming in with a tying hit. This happened for three innings. Then scoring a run in the three frames. Then the Oaks failed to score for the next four innings. The Tigers kept tying them up. But in the eighth inning they took of playing an even game. Then the boys from Oakland and forged ahead with one run in the ninth. All that was needed to clinch the game, as the Oaks could come nowhere nearer.

The Oaks' runner over the rubber.

The Oaks' pitcher, who came in in the eighth, when each team should have scored again. Billy Lane led off with a three bagger to deep left and remained on the field. The overwork was put out at first. Rubo Gardner, though that he could get away with the squeeze play, he failed and Lane was tagged out easily.

That was only one of the breaks that were against the Oaks. In Vernon's half of the same inning Swede Risber opened the eighth with a drive to the right, almost the same spot that the fielder hit the ball. That does not matter, though. It is the next play that counts. The Tigers' pitcher, who was squeeze play, for Higginbotham uncocked a wild pitch and the Swede romped across the plate. Both teams had the game closed.

KISS COSTS \$100.
LEWISTOWN, Pa., July 5.—A Clearfield local found it scarcely worth his while when he pressed a kiss upon the lips of the wife of a fellow workman and was required to pay \$100 and costs.

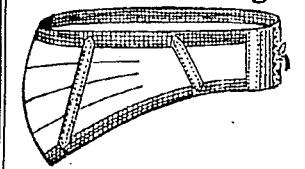

CALOMEL BAD FOR THE LIVER

Dose of Nasty Calomel Makes You Sick and You Lose a Day's Work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with your bile it crashes into it, causing vomiting and nausea. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a 50 cent bottle of Dodson's Liver Tonic, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful, and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate your liver. If you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.—Advertisement.

This Support Helps You Carry the Extra Weight

People who are large in the abdominal regions will find that an abdominal supporter will be of great comfort. It is an aid to fatigue and permits entire ease of movement.

The supporter shown is made in both linen and silk. It has no grooves, buckles or straps. It is especially recommended as an abdominal supporter for women during pregnancy and after child-birth, for tumors, ruptures and in all cases of enlargement of the abdomen.

SAN BERNARDINO DEALERS NOT FAIR

State Sealer Finds Oil Men of South Filched \$400 Per Day.

SACRAMENTO, July 5.—By compelling the sellers of gasoline to strictly conform to the weights and measures law, J. M. Bracewell, sealer of weights and measures of San Bernardino county, has saved \$400 a day to the owners of 4000 machines in that county.

In a report to Charles G. Johnson, state superintendent of weights and measures, Bracewell says he found upon inspection, that the average five-gallon delivery from the pumps was half a gallon short. As there are 4000 automobiles in the county, each consuming five gallons of gasoline a day on the average, this meant the owners were being defrauded of 2000 gallons of gasoline daily.

Through the enforcement of the full measure law the sealer has effected an actual saving of \$130,000 annually to San Bernardino automobilists.

In commenting on this saving, Johnson says that the work of the county department of weights and measures associates itself more closely to the direct interests of the people than any other department. To obtain the highest standard of efficiency, Johnson urges that it be divorced entirely from political influence.

Johnson believes that the maintenance of the standard of weight and measure is comparatively as important as the maintenance of the standard of currency. But to make the department effective, it must have the full support and approval of the people, as well as the liberal co-operation of the county boards of supervisors.

State Deputy Sealer J. C. Kesler is now standardizing the weighing and measuring devices of Modoc county, and enforcing the various weights and measures regulations. Merchants are readily conforming to the regulations, which place them on a fair and equitable basis of competition.

How You Can Make Hairs Quickly Disappear

(Helps to Beauty)
Even a stubborn growth of hair will quickly vanish from the face, neck or arms after a single treatment with delatone. To remove the hairs, make a stiff paste with a little powdered delatone and water, apply to hairy surface and after about 2 minutes rub off, wash the skin and it will be left free from hair or blemish. To avoid disappointment, be quite certain you get real delatone.—Advertisement.

WAR STOPS WORK OF AIDING JEWS

Educational Problems to Be Coped With by American Rabbis.

WILLOWOOD, N. J., July 5.—A special commission on "Jews of Other Lands" reported to the Central Conference of American Rabbis here today that conditions arising through the war in Europe had prevented the Commission from proceeding with its work. It had been impossible to maintain the necessary correspondence and there had been no access to sources of information, which under normal conditions would be available.

Rabbi Louis Grossmann of Cincinnati, chairman of the Commission, submitted to the Conference, however, a number of questions which he said should be answered as to the economic, moral and religious conditions of Jews in other countries, as study along these lines had an important bearing on the status of Jews in this country and on the legal enactments as to labor and immigration.

There was need, he said, of full inquiry as to the internal forces of Jewish life. Study should be made of what the Jews were doing toward developing schools, synagogues and communities, and as to what trades, occupations or professions Jews were now preoccupied with or endeavoring to enter.

"What," he asked, "are they doing for themselves, for their moral, theological and economic emancipation?"

"What are the legal, social, and 'prejudicial' relations of Jews with non-Jews under the stress of governments or of national and racial feeling?"

"What part have the historic feelings of sympathy and of antipathy, on both sides, of Jews and non-Jews, in the absorption and assimilation of Jews in the general culture and their standing abroad from 1776? What effect have they on the Americanization of the immigrant Jew?"

"Public opinion in the United States with regard to the Jew," he said, "is not infrequently a recrudescence of feelings which are foreign in origin and character and which the moral genius of American equity has not yet succeeded in casting out."

He asked whether intermarriage between Jews and non-Jews was an "appreciable phenomenon," whether it was becoming more frequent, and whether it raised the standard of the Jewish home.

He discussed the subject of literacy. "Nothing but a scrupulous and unprejudiced investigation will suffice," he declared, "either to confirm or to shake our confidence in the intellectual fitness of the Jewish immigrant. But we ought to know the conditions as they really are, so that the Jew may be proven, as we believe he can be, to stand safe against the charge of illiteracy, or, if he cannot, that we may shift the burden of guilt where it belongs, to the iniquity of and neglect by his former foreign tyrannical government."

Rabbi Grossmann suggested that after the war it might be practicable to connect Jewish charitable organizations in America with those abroad and correlate their work and their influence on that contingent of Jews who come to the United States.

CALAVERAS PAIR WED.
Culminating a romance of youthful days, Joseph H. Southwick, a wealthy rancher of Milton, Calaveras county, age 69 years and a bachelor, today took out a marriage license to marry Margaret Nicholson, a spinster, 57 years of age, who came from Jenkins town, Pa., where she has been a school teacher. The couple were married by a local minister and will return to Calaveras county for their honeymoon.

CITIZEN SOLDIER FORCES TO MEET

Monday Opens Unique School on Shores of Monterey Bay.

"Reveille," the snappy bugle call that proclaims to the world that soldiers are extremely difficult to get up in the morning, will awaken more than 2000 citizens of California, Oregon, Nevada and Arizona, at 5:45 o'clock next Monday morning to four weeks of good, hard, intensive military training at the United States army camp, Monterey.

About eighty per cent of the men of the two regiments of civilians who hear the clear notes of the bugle announcing the fact that "I can't get 'em up, I can't get 'em up, I can't get 'em up in the morning," will have heard it for the first time on Monday next. But before the men leave camp on August 5, Reveille is going to be firmly fixed in their memory, for every morning—at the same hour—it's going to echo over Monterey Bay with its call to be up and doing.

Last minute applications for enrollment in the camp are pouring into camp headquarters at 201 Pine street, San Francisco, this week, from all parts of the four states, for the last call for enrollments has been sounded and those who do not signify their intention to enroll immediately will be deprived of the opportunity to do so.

Although the Monterey encampment for civilians who are anxious to learn sufficient of the art of war to fit themselves to become officers of volunteer forces, should they care to take such commission in time of national trouble, is under the direction of the War Department, with regular army officers and soldiers acting as instructors, enrollment in the camp obligates no one to any service saving the four weeks at Monterey. The camp recruits are paying their own expenses, which, for uniforms and subsistence, will cost less than \$40 for the month, exclusive of transportation to and from camp. All citizens of the United States, between the ages of 18 and 60, having an education at least equivalent to that given by a high school, of good moral character and able to pass a physical examination, are eligible to attend the camp.

Brigadier General William L. Sibert, U. S. Army, one of the officers who helped build the Panama Canal, will be camp commander, and the War Department is detailing scores of regular army officers and non-commissioned officers to act as instructors for the civilian recruits. One battalion of regular army soldiers are now at the camp ground as troops of instruction.

The camp is located on Monterey Bay, and the civilians will have all sorts of boating, bathing and athletic contests, including tennis, polo, baseball and track events, to amuse them when not performing military duties.

Three Boys Saved From Death on Bay

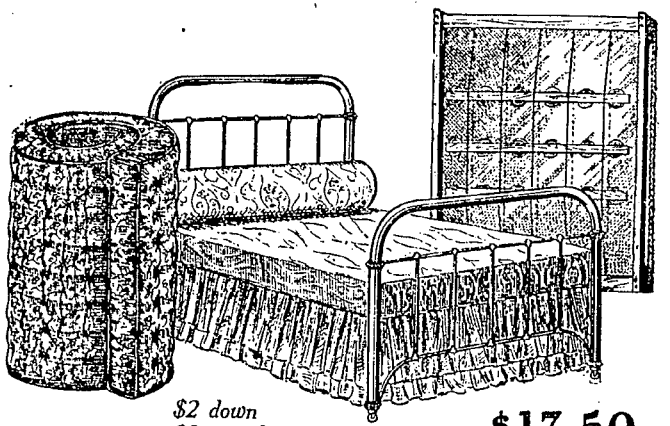

But for the timely arrival of the launch Yankee of the Oakland Tow-boat Company, three San Francisco boys would have been drowned in the bay yesterday afternoon.

Fred Colburn, Adolph Bricketto and

Carl Klink, sailing a 20-foot yacht, were returning from Paradise Cove when they encountered the gale and heavy seas on the bay. Their craft was rapidly filling when the Yankee perceived their predicament, and went to the rescue. When the launch brought them into Black Point Cove, at the foot of Van Ness avenue, their craft was more than half full of water. The boys were unharmed.

First Copra Load in Months Shipped

HONOLULU, T. H., July 5.—The liner Sonoma, which arrived here yesterday from Sydney, New South Wales, on its way to San Francisco, has 1,588 tons of copra, the first shipped from Sydney in months, consigned to the British consul general at San Francisco.

CONNELLEY

LIQUOR CURE INSTITUTE

1273 Twenty-sixth Avenue

Oakland, California

WAITING FOR A JOLLY GOOD FELLOW.

THE CONNELLEY INSTITUTE.

TO THE DRINKING MAN

You, better than anyone else, know what the craving for liquor is—how impossible to keep the resolution never to touch liquor again. You have said time and time again that you will stop drinking; but have you? When you say you will stop you know that the best you can do is to refrain from the use of liquor for a short time only. Do you not owe more than periodic spells of sobriety to your wife, to your children, to your friends and relatives?

Many people do not appreciate that the scientific treatment of the liquor appetite requires no imprisonment of the patients. The Connelley pure herb treatment removes the craving, and then all that is needed is rest, quiet, plenty of fresh air and exercise.

AT ALL TIMES THE PATIENTS ENJOY THE UTMOST FREEDOM AND LIBERTY.

The Connelley Liquor Cure Is the Only Positive Treatment for Drunkenness

Being a disease no pledges of abstinence or voluntary exercise of will power will cure the craving for whiskey, without treatment. In some cases, where there is a naturally strong constitution and the appetite has not become firmly fixed, individuals have been able to fight the desire for stimulants, but this is only in rare instances. As the appetite grows the will power is constantly weakened until the sufferer can no longer say "No." The virus of the disease must be completely eradicated from the system before there can be hope of cure. THE CONNELLEY LIQUOR CURE IS THE ONLY TREATMENT WHICH HAS MET WITH PERMANENT SUCCESS.

Established over 17 years in Oakland, this institute has thousands of cures to its credit—cures which have been made in the very worst cases of habitual drunkenness. There are none so bad that they cannot be cured. We have testimonials from the most reputable physicians and business men of the Pacific Coast. If you wish further information your correspondence will be absolutely confidential.
